## Directors' report

The Board of Directors ("the Board") of Dubai Investments PJSC ("the Company") is pleased to present their report along with the audited consolidated financial statements of the Company and its subsidiaries (together, "the Group") for the year ended 31 December 2025.

## Principal activities

The Group is primarily involved in development of real estate for sale and leasing, contracting activities, manufacturing and trading of products in various sectors, investment banking, asset management, financial investments, healthcare and education.

## Financial performance

The Group has reported profit after tax attributable to the shareholders of the Company of AED 1,550.12 million for the year ended 31 December 2025 as compared to AED 1,205.38 million in the previous year.

Total assets of the Group stands at AED 23.28 billion as of 31 December 2025 (2024: AED 22.10 billion).

## Dividend

In line with its commitment to provide enhanced returns to shareholders, the Board propose to distribute cash dividend of 25% (AED 0.25 per share) to the shareholders of the Company for the year 2025.

At the General Meeting held on 16 April 2025, the shareholders had approved a 18% (AED 0.18 per share) cash dividend proposed by the Board of Directors. The dividend amounting to AED 765.36 million was distributed in May 2025.

## Proposed appropriations

The Directors propose the following appropriation from the retained earnings:

	<b>AED'000</b>
Transfer to legal reserve	231,120
Proposed cash dividend	1,063,005

## Directors' fees

Proposed Directors' fees amounting to AED 30 million has been included under administrative expenses.

## Outlook 2026

The Group is cautiously optimistic for 2026. UAE economy is expected to remain resilient despite the challenging macro environment and is well positioned to face current operating environmental challenges. The Group continues to focus on timely execution of ongoing real estate projects and continuing with its expansion plans. The Group is also actively evaluating investment opportunities across the various sectors and geographies.

## **Director's report (continued)**

### **Directors**

The Board of Directors comprise:

Mr. Abdulrahman Ghanem Abdulrahman Almutaiwee - Chairman  
Mr. Khalid Jassim Mohammed Bin Kalban - Vice Chairman  
Mr. Ali Fardan Ali Al Fardan  
Mr. Mohammed Saif Darwish Ahmed Al Ketbi  
Mr. Khaled Mohammed Ali Al Kamda  
Mr. Ahmed Salem Abdulla Salem Alhosani  
Mr. Faisal Abdulaziz Alshaikh mohamed Alkhazraji  
Mr. Hussain Nasser Ahmed Lootah  
Ms. Hind Abdulrahman AlAli

### **Related parties**

The consolidated financial statements disclose material related party balances and transactions in Notes 19, 24 and 35 respectively. All transactions are carried out in the normal course of business and in compliance with applicable laws and regulations.

### **Auditors**

KPMG Lower Gulf Limited ("KPMG") were appointed as the auditors of Dubai Investments PJSC for the year ended 31 December 2025. The Board of Directors propose to appoint KPMG Lower Gulf Limited ("KPMG") for the audit of the year ending 31 December 2026.

### **Acknowledgment**

The Board would like to express their gratitude and appreciation to all its shareholders, client and business partners whose continued support has been a source of great strength and encouragement.

The Board would also like to place on record their commendation for the hard work and efforts put in by Group management and staff as well as their loyalty and perseverance for the benefit of the Company and its shareholders.

On behalf of the Board

Abdulrahman Ghanem Abdulrahman Almutaiwee  
Chairman

## Independent auditors' report

### To the Shareholders of Dubai Investments PJSC

#### Report on the Audit of the Consolidated Financial Statements

##### Opinion

We have audited the consolidated financial statements of Dubai Investments PJSC (“the Company”) and its subsidiaries (“the Group”), which comprise the consolidated statement of financial position as at 31 December 2025, the consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising material accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2025, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards).

##### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the United Arab Emirates, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

##### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

**Key Audit Matters (continued)**

**Valuation of investment properties**

See Notes 3 and 12 to the consolidated financial statements.

The key audit matter	How the matter was addressed in our audit
<p><b>Valuation of investment properties</b></p> <p>Investment properties represent 47% of the Group's total assets. The Group's accounting policy is to measure its investment properties (primarily comprising infrastructure and ancillary facilities, plots of land, residential, retail and commercial facilities, labor camps and warehouses) at fair value at each reporting date. The property portfolio is valued at AED 10,919 million as at 31 December 2025. The net fair value gain recorded in the consolidated statement of profit or loss for the year ended 31 December 2025 amounted to AED 837 million.</p> <p>The Group engaged external valuers to fair value all of its investment properties.</p> <p>The property portfolio is valued by using a combination of income valuation approach - discounted cash flows model, income capitalisation approach and sales comparison approach. Key inputs into the valuation process are future contractual rental cash inflows, discount rates, market sales rates, yield rates, forecasted operating expenses, which are influenced by prevailing market forces and the specific characteristics, such as property location, income return, growth rate and occupancy rate of each property in the portfolio. Comparable transactions are also a key input.</p> <p>The valuation of the portfolio is a significant judgment area and is underpinned by a number of assumptions. The existence of significant estimation uncertainty warrants specific audit focus in this area as any error in determining the fair value could have a material impact on the value of the Group's investment properties and the fair value gain or loss recognized in respect of these investment properties.</p>	<p>Our audit procedures included:</p> <ul style="list-style-type: none"> <li>- We have evaluated the qualifications, competence and independence of the external valuers and assessed their terms of engagement with the Group to determine whether there were any matters that might have affected their objectivity or may have imposed scope limitations on their work.</li> <li>- We obtained the external valuation reports for all properties and involved our valuation specialist to assess the appropriateness of valuation approach and assumptions used by the valuers in determining the fair value of the properties.</li> <li>- On a sample basis, performed audit procedures to test the completeness and accuracy of the source data, provided to the valuation experts by management, used in determination of fair value by comparing it to underlying supporting information.</li> <li>- We assessed the adequacy of the disclosures in the consolidated financial statements against the requirements of the IFRS Accounting Standards.</li> </ul>

## Other Information

Management is responsible for the other information. The other information comprises the information included in the Annual Report (including Directors' report), but does not include the consolidated financial statements and our auditors' report thereon. We obtained the Directors' report prior to the date of this auditors' report, and we expect to obtain the remaining sections of the Annual Report after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we have obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards and their preparation in compliance with the applicable provisions of the UAE Federal Decree Law No. 32 of 2021, as amended, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those Charged with Governance are responsible for overseeing the Group's financial reporting process.

## Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

### **Auditors' Responsibilities for the Audit of the Consolidated Financial Statements (continued)**

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on Other Legal and Regulatory Requirements

Further, as required by the UAE Federal Decree Law No. 32 of 2021, as amended, we report that for the year ended 31 December 2025:

- i) we have obtained all the information and explanations we considered necessary for the purposes of our audit;
- ii) the consolidated financial statements have been prepared and comply, in all material respects, with the applicable provisions of the UAE Federal Decree Law No. 32 of 2021, as amended;
- iii) the Group has maintained proper books of account;
- iv) the financial information included in the Directors' report is consistent with the books of account of the Group;
- v) as disclosed in note 13,15 and 37 to the consolidated financial statements, the Group has purchased shares during the year ended 31 December 2025;
- vi) note 35 to the consolidated financial statements discloses material related party transactions and the terms under which they were conducted;
- vii) based on the information that has been made available to us, nothing has come to our attention which causes us to believe that the Group has contravened during the financial year ended 31 December 2025 any of the applicable provisions of the UAE Federal Decree Law No. 32 of 2021, as amended, or in respect of the Company, its Articles of Association, which would materially affect its activities or its consolidated financial position as at 31 December 2025; and
- viii) note 7 to the consolidated financial statements discloses the social contributions made during the year ended 31 December 2025.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025

## 1 Reporting entity

Dubai Investments PJSC (“the Company”) was incorporated in the United Arab Emirates by Ministerial Resolution No. 46 of 1995, on 16 July 1995. The consolidated financial statements for the year ended 31 December 2025 comprise the financial statements of the Company and its subsidiaries (collectively referred to as “the Group”) and the Group’s interest in equity accounted investees’. The shares of the Company are traded on Dubai Financial Market.

The Group is primarily involved in development of real estate for sale and leasing, contracting activities, manufacturing and trading of products in various sectors, investment banking, asset management, financial investments, healthcare and education.

At 31 December 2025 the Company had 15,724 shareholders (2024: 15,956 shareholders).

The registered address of the Company is P.O. Box 28171, Dubai, United Arab Emirates (“UAE”).

## 2 Basis of preparation

### 2.1 Statement of compliance

The consolidated financial statements have been prepared in accordance with the IFRS Accounting Standards (“IFRSs”) issued by International Accounting Standards Board and interpretations issued by the IFRS Interpretations Committee (“IFRS IC”) and the applicable requirements of the UAE Federal Decree Law No. 32 of 2021, as amended.

### 2.2 Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis, except for the following which are measured at fair value:

- investment properties (Note 12);
- investments at fair value through other comprehensive income (Note 13);
- investments at fair value through profit or loss (Note 13); and
- other financial assets at fair value through profit or loss (Note 14).

### 2.3 Functional and presentation currency

These consolidated financial statements are presented in United Arab Emirate Dirham (“AED”), which is the Company’s functional currency. All amounts have been rounded to the nearest thousand, unless otherwise indicated.

### 2.4 Use of judgments and estimates

In preparing these consolidated financial statements, management has made judgments, estimates and assumptions that affect the application of Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

Information about judgments in applying accounting policies, assumptions and estimation uncertainties that have the most significant effect on the amounts recognised in the consolidated financial statements is included in Note 3.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 2 Basis of preparation (continued)

### 2.5 Measurement of fair values

A number of the Group's accounting policies and disclosures require the determination of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. This includes a management team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values. The management team regularly reviews significant unobservable inputs and valuation adjustments.

If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of IFRS, including the level in the fair value hierarchy in which such valuations should be classified.

Significant valuation issues are reported to the Audit Committee.

When measuring the fair value of an asset or liability, the Group uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

If the inputs used to measure the fair value of an asset or liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the significant assumptions made in measuring fair values is included in the following Notes:

- Note 12 – Investment properties;
- Note 13 – Financial investments; and
- Note 14 – Other financial assets at fair value through profit or loss

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 3 Accounting estimates and judgments

Management has reviewed the development, selection and disclosure of the Group's critical accounting policies and estimates and the application of these policies and estimates. The following are the critical accounting estimates and judgment used by management in the preparation of these consolidated financial statements:

### (a) Valuation of investment properties

The Group fair values its investment properties. Independent registered valuers, who have the appropriate recognised professional qualification value majority of the properties annually. Note 12 contains information about the valuation methodology considered by the third party valuers.

### (b) Net Realisable Value ("NRV") assessment of properties held for development and sale

The Group reviews its inventories to assess any loss on account of diminution in the value of real estate inventories on a regular basis i.e. NRV assessment. A significant portion of the Group's inventories comprise property held for development and sale. For certain properties held for development and sale, NRV has been estimated with assistance from an independent registered valuer, who has the appropriate recognised professional qualification. For other properties held for development and sale, NRV was estimated internally by management. There are significant estimates and judgements involved including the Group's estimate of the selling price, construction cost for properties under development, estimated future market rent and capitalisation yield rates, which due to inherent nature of estimates, cannot be determined with precision.

### (c) Impairment of other non-current assets

Other non-current assets such as property, plant and equipment, other intangible assets and investments in equity accounted investees are tested for impairment whenever there is an indication of impairment. Testing for impairment of these assets require management to estimate the recoverable amount of the cash generating unit.

### (d) Determining fair values of financial investments

The determination of fair value for financial investments for which there is no observable market price requires the use of valuation techniques as described in Note 13. For financial investments that trade infrequently and have little price transparency, fair value is less objective, and requires varying degrees of judgment depending on liquidity, concentration, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

### (e) Determination of incremental borrowing rate

The Group uses the incremental borrowing rate for determination of its lease liability and right of use of asset. The Group has used the discount rate based on the rates at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

### (f) Determining the lease term

In determining the lease term, management considers all facts and circumstances that create an economic incentive to continue and/or terminate lease. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated). The assessment is reviewed if a significant event or a significant change in circumstances occurs which affects this assessment and that is within the control of the Group as a lessee.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 3 Accounting estimates and judgments (continued)

(g) *Revenue recognition from sale of properties under development*

(i) *Satisfaction of performance obligations for property and land sales*

The Group is required to assess each of its contracts with customers and apply judgment in order to determine whether performance obligations are satisfied over time or at a point in time in order to determine the appropriate method of recognising revenue. The Group has assessed that based on the sale and purchase agreements entered into with customers for the provision of real estate assets, the Group does not create an asset with an alternative use and has an enforceable right to payment for performance completed to date. In these circumstances the Group recognises revenue over time. Where this is not the case revenue is recognised at a point in time.

(ii) *Cost to complete of the properties under development*

The Group uses the percentage-of-completion method in accounting for its revenue from sale of properties held for development and sale. Use of the percentage-of-completion method requires the Group to estimate the cost incurred to date as a proportion of the total estimated project cost. The amount of revenue recognised for the period is in proportion to the percentage of cost incurred.

Using the proportion of cost incurred to date to the estimated cost of the project method requires the Group to estimate the obligations performed to date as a proportion of the total obligations to be performed under contracts with customers for sale of properties held for development and sale. These estimates include the cost of providing infrastructure, potential claims by contractors as evaluated by the project consultant and the cost of meeting other contractual obligations to the customers.

(h) *Recoverability of trade receivables*

The Group reviews its trade receivables to assess impairment at least on an annual basis. In determining whether impairment losses should be reported in the consolidated statement of profit or loss. In doing so, the Group exercises significant judgment taking into account the legal circumstances and the ability of the counterparty to repay the outstanding amount, where applicable, to estimate the likelihood of recoverability (Note 5).

(i) *Taxes*

The Group is subject to corporate taxes in the jurisdictions where it is implemented. Significant judgment is required to determine the total provision for current and deferred taxes. The Group established provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which it operates. The amount of such provisions are based on various factors and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 4 New standards and interpretations not yet adopted

A number of new standards are effective for annual periods beginning after 1 January 2025 and earlier application is permitted; however, the Group has not early adopted the new or amended standards in preparing these consolidated financial statements.

<b>New accounting standards or amendments</b>	<b>Effective date</b>
Classification and Measurement of Financial Instruments – Amendments to IFRS 9 <i>Financial Instruments</i> and IFRS 7 <i>Financial Instruments: Disclosures</i>	01 January 2026
Contracts Referencing Nature-dependent Electricity – Amendments to IFRS 9 and IFRS 7	01 January 2026
Annual Improvements to IFRS Accounting Standards – Volume 11	01 January 2026
IFRS 18 <i>Presentation and Disclosure in Financial Statements</i>	01 January 2027
IFRS 19 <i>Subsidiaries without Public Accountability: Disclosures</i>	01 January 2027
Sale or Contribution of Assets between an Investor and its Associate or Joint Venture – Amendments to IFRS 10 <i>Consolidated Financial Statements</i> and IAS 28 <i>Investments in Associates and Joint Ventures</i> **	To be determined

The following new or amended standards that are required to be adopted in annual periods beginning on or after 1 January 2025 that do not have a material impact on the Company's financial statements are as follows:

<b>New accounting standards or amendments</b>	<b>Effective date</b>
Lack of Exchangeability – Amendments to IAS 21	01 January 2025

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 5 Financial risk management

### Overview

The Group has exposure to the following risks arising from financial instruments:

- credit risk
- liquidity risk
- market risk

### Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board of Directors has established a Risk Committee which is responsible for developing and monitoring the Group's risk management policies and processes. The Group Risk Function reports quarterly to the Risk Committee in line with its ERM Manual. The Risk Committee regularly reviews risk management policies and systems to reflect changes in market conditions and Group's activities.

The Risk Committee oversees compliance with the Group's risk management policies and procedures and reviews the adequacy and effectiveness of the risk management framework, processes and systems. Group Internal Audit undertakes an annual review of the Group Risk Function controls and procedures, the results of which are reported to the Audit Committee.

### Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's trade receivables, due from related parties and other receivables, Investments in bonds and structured funds , rent receivables, short-term deposits with banks and cash and cash equivalents.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	2025 AED'000	2024 AED'000
Trade receivables (net) (Note 18)	3,211,024	2,486,189
Cash and cash equivalents (excluding cash in hand) (Note 20)	1,269,511	932,312
Due from related parties and other receivables (Note 19)	359,353	378,484
Investments in bonds and structured funds	339,052	311,683
Short-term deposits with banks (Note 20)	45,765	72,780
Rent receivable (Note 16)	26,970	55,023
	<u>5,251,675</u>	<u>4,236,471</u>

The maximum exposure to credit risk of trade receivables at the reporting date by geographical region was:

	2025 AED'000	2024 AED'000
Domestic	2,985,586	2,364,257
Other GCC countries	184,692	79,655
Other regions	40,746	42,277
	<u>3,211,024</u>	<u>2,486,189</u>

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 5 Financial risk management (continued)

### (a) Trade receivables, rent receivables, due from related parties and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the demographics of the Group's customer base, including the default risk of the industry and country in which customers operate, as these factors may have an influence on credit risk.

The Group seeks to limit its credit risk with respect to customers by reviewing credit to individual customers by tracking their historical business relationship and default risk. On a case-to-case basis subsidiaries operating in the property segment sell its properties subject to retention of title clauses, so that in the event of non-payment the Group may have a secured claim. In case of leases, advances are received at the time of signing of the agreement and all construction, renovation or any kind of work to be carried out at the leased premises needs prior approval from the Group. The risk of default in instalment is thereby mitigated as the customer (tenant) has incurred significant capital expenditure on the leased premises which can be taken over by the Group in the event of default. In monitoring customer credit risk, customers are grouped according to their credit characteristics, history with the entity and existence of previous financial difficulties.

The Group applies the IFRS 9 simplified approach on trade and other receivables to measure the expected credit losses which uses a lifetime expected loss allowance for all trade receivables and other receivables. The identified impairment loss was considered immaterial for due from related parties.

To measure the expected credit losses, trade receivables and other receivables have been grouped based on shared credit risk characteristics and the days past due. The expected loss rates are based on the historical credit losses experienced. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The Group has identified the gross domestic product of the countries in which it sells its goods and services to be the most relevant factors, and accordingly adjusts the historical loss rates based on expected changes in these factors.

Based on existing credit risk management practices, the default definition has been determined which aptly captures the gradual deterioration of the receivables under consideration.

The collaterals get factored through loss given default estimates and hence are used to adjust exposure while computing expected credit loss. The Group limits its exposure to credit risk by investing with counterparties that have credible market reputation. The Group's management does not expect any significant counterparty to fail to meet its obligations.

Overall, the Group has a diversified customer base with no significant concentration of credit risk within trade receivables at 31 December 2025 and 2024 except for one customer that accounts for 17% (2024: 21%) of the gross trade receivables.

The movement in the allowance for impairment in respect of trade receivables, due from related parties and other receivables during the year was as follows:

	2025 AED'000	2024 AED'000
As at 1 January	788,404	519,192
Net impairment loss recognized	55,027	271,995
Write off during the year	(31,770)	(2,783)
As at 31 December	<u>811,661</u>	<u>788,404</u>

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 5 Financial risk management (continued)

### Credit risk (continued)

#### (a) Trade receivables, rent receivables, due from related parties and other receivables (continued)

The impairment provision as at 31 December 2025 was determined for the trade receivables within the real estate business, as follows, based on management assessment of default period being 180 days from the date the counter party fails to make contractual payment:

AED' 000	Current	More than 180 days overdue	More than 365 days overdue	Total
<b>31 December 2025</b>				
Expected loss rate	0.44%	0.57%	8%	
Gross carrying amount	1,813,721	447,298	1,049,239	3,310,258
Loss allowance	7,908	2,567	86,399	96,874

AED' 000	Current	More than 180 days overdue	More than 365 days overdue	Total
<b>31 December 2024</b>				
Expected loss rate	0.51%	6%	4%	
Gross carrying amount	1,324,332	238,425	1,118,031	2,680,788
Loss allowance	6,763	14,195	43,780	64,738

In addition to the above loss allowance, the Group has recognised specific impairment provision of AED 518.15 million as of 31 December 2025 (2024: AED 504.45 million).

The impairment provision as at 31 December 2025 was determined for the trade receivables, due from related parties and other receivables within the manufacturing and services business, as follows, based on management assessment of default period being 180 days from the date the counter party fails to make contractual payment:

AED' 000	Current	More than 180 days overdue	More than 365 days overdue	Total
<b>31 December 2025</b>				
Expected loss rate	1%	8%	27%	
Gross carrying amount	422,710	46,285	135,230	604,225
Loss allowance	5,260	3,623	36,235	45,118

## 5 Financial risk management (continued)

### Credit risk (continued)

(a) Trade receivables, rent receivables due from related parties and other receivables (continued)

AED' 000	Current	More than 180 days overdue	More than 365 days overdue	Total
31 December 2024				
Expected loss rate	2.50%	5%	47%	
Gross carrying amount	296,785	55,921	163,336	516,042
Loss allowance	7,417	2,897	76,219	86,533

In addition to the above loss allowance, the Group has recognised specific impairment provision of AED 101.90 million as of 31 December 2025 (2024: AED 86.30 million).

The impairment provision as at 31 December 2024 was determined for the trade receivables within the contracting business, as follows, based on management assessment of default period being 365 days from the date the counter party fails to make contractual payment, which is based on the customary business practice in the contracting business:

AED' 000	Current	More than 180 days overdue	More than 365 days overdue	Total
<b>31 December 2025</b>				
Expected loss rate	4%	5%	88%	
Gross carrying amount	52,122	7,369	48,711	108,202
Loss allowance	2,297	380	42,742	45,419

AED' 000	Current	More than 180 days overdue	More than 365 days overdue	Total
31 December 2024				
Expected loss rate	6%	4%	84%	
Gross carrying amount	24,849	4,738	48,176	77,763
Loss allowance	1,535	189	40,456	42,180

In addition to the above loss allowance, the Group has recognised specific impairment provision of AED 4.20 million as of 31 December 2025 (2024: AED 4.20 million).

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 5 Financial risk management (continued)

### Credit risk (continued)

#### (b) Investments in bonds and structured funds

All of the Group's investments are considered to have low credit risk, and the loss allowance recognised is therefore limited to 12 months' expected losses. Management consider 'low credit risk' where they have a low risk of default and the issuer has a strong capacity to meet its contractual cash flow obligations in the near term.

The Group limits its exposure to credit risk by investing only in liquid debt securities and only with counterparties that have credible market reputation.

The Group monitors changes in credit risk by tracking published external credit ratings. To determine whether published ratings remain up to date and to assess whether there has been a significant increase in credit risk at the reporting date that has not been reflected in published ratings, the Group supplements this by reviewing changes in bond yields.

#### (c) Cash and cash equivalents and short-term deposits with banks

Cash is placed with local and international banks of good credit reputation. The Group considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties. The cash and cash equivalents at the balance sheet date is placed with local and international banks having credit ratings A2 to Baa1.

Cash and cash equivalents and short-term deposits with banks are also subject to the impairment requirements of IFRS 9. For cash and cash equivalents and short-term deposits the probability of default is derived from benchmarking and default rate studies conducted by external rating agencies. Loss given default estimate is taken from Basel guidelines. The identified impairment loss on cash and cash equivalents and short term deposits with banks were insignificant.

There is no significant concentration of credit risk with respect to cash and cash equivalents, as the Group holds cash accounts in a number of diversified financial institutions.

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 5 Financial risk management (continued)

### Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group aims to maintain the level of cash and cash equivalents and other liquid investments at an amount in excess of expected cash outflows on financial liabilities. This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

The following are the contractual maturities of financial liabilities, including estimated interest payments

	Carrying Amount AED'000	Contractual cash Flows AED'000	Within 1 year AED'000	1-2 years AED'000	2-3 years AED'000	More than 3 years AED'000
<b>31 December 2025</b>

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 5 Financial risk management (continued)

### Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Group uses derivatives in order to manage market risks, however, the Group does not apply hedge accounting.

#### (a) Currency risk

The Group is exposed to currency risk on sales and purchases that are denominated in a currency other than the respective functional currencies of the Group entities, primarily Euro and GBP. The Group does not face any foreign currency risk on transactions denominated in USD as AED is pegged to USD.

The Group manages its exposure in foreign currency exchange rates by the use of derivative instruments.

In respect of other monetary assets and liabilities denominated in foreign currencies, the Group policy is to ensure that its net exposure is kept to an acceptable level by buying and selling foreign currencies at spot rate when necessary to address short term imbalances.

	2025 Euro'000	2025 GBP'000	2024 Euro'000	2024 GBP'000
Investments	52,607	67,069	65,009	51,640
Cash at bank	1,931	-	25	-
Trade and other payables	(553)	-	(163)	-
Borrowings	(77,023)	-	(79,044)	-
Net exposure	<u>(23,038)</u>	<u>67,069</u>	<u>(14,173)</u>	<u>51,640</u>

The following exchange rates were applied during the year:

	Average rate		Closing Spot rate	
	2025 AED	2024 AED	2025 AED	2024 AED
GBP	4.84	4.64	4.94	4.60
Euro	<u>4.15</u>	<u>3.94</u>	<u>4.31</u>	<u>3.80</u>

### Sensitivity analysis

A limited fluctuation of AED against Euro and GBP at 31 December would not have any significant impact on profit or loss.

#### (b) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect the net finance cost of the Group.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 5 Financial risk management (continued)

### Market risk (continued)

#### (b) Interest rate risk (continued)

Financial assets and liabilities that are subject to fair value risk are the ones with fixed interest rate. Financial assets and liabilities that are subject to cash flow rate risk are the ones with floating interest rate.

The long-term loans attract varying rates of interest, which are, in general, varied with reference to the base lending rates of the banks at regular intervals.

The Group is exposed to interest rate risk on its interest bearing assets and liabilities. The Group manages its exposure arising due to fluctuations in interest rates by the use of derivative instruments when appropriate.

At the reporting date the interest rate profile of the Group's interest-bearing financial instruments was:

	2025 AED'000	2024 AED'000
<b>Fixed rate instruments</b>		
Financial assets	637,413	573,875
Financial liabilities	<u>(317,153)</u>	<u>(342,733)</u>
<b>Variable rate instruments</b>		
Financial assets	52,013	50,392
Financial liabilities	<u>(5,330,606)</u>	<u>(5,404,421)</u>

### Fair value sensitivity analysis for fixed rate instruments

The Group accounts for certain fixed rate financial assets at fair value through profit or loss. The Group does not designate derivatives as hedging instruments under a fair value hedge accounting model.

An increase of 100 basis points ("bps") in interest rates at the reporting date does not have any significant impact on profit or loss.

### Cash flow sensitivity analysis for variable rate instruments

A change of 100 bps in interest rates at the reporting date would have increased/ (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis was performed on the same basis for 2024.

Effect in AED'000	Profit or Loss	
	100 bps Increase	100 bps Decrease
31 December 2025	<u>(52,786)</u>	<u>52,786</u>
31 December 2024	<u>(53,540)</u>	<u>53,540</u>

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 5 Financial risk management (continued)

### Market risk (continued)

#### (c) Price risk

Price risk arises from marketable securities measured at fair value. Management of the Group monitors the mix of debt and equity securities in investments portfolio to maximise investment returns, which is the primary goal of the Group's investment strategy. In accordance with this strategy certain investments are designated as fair value through profit or loss because their performance is actively monitored and they are managed on a fair value basis.

### Fair value of financial assets and liabilities measured at amortised costs

The fair value of financial assets and liabilities measured at amortised costs approximate its carrying value at 31 December 2025 and 31 December 2024.

### Capital management

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Board of Directors monitors the return on capital, which is defined as profit for the year attributable to equity holders of the Company divided by total shareholders' equity. The Board of Directors also monitors the level of dividend to ordinary shareholders.

The Board of Directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowing and the advantages and security afforded by a sound capital position. The Board has defined the Company's gearing ratio to be maintained below 1:2 level. This ratio is calculated as net debt divided by total equity plus net debt. Net debt is calculated as the total bank borrowings less cash and cash equivalents and investments classified as Level 1 and Level 2. Total equity is calculated as shown in the statement of financial position. The analysis of the net debt of the Group is set out below:

	2025 AED'000	2024 AED'000
Cash and cash equivalents (Note 20)	1,270,317	933,619
Short-term deposits with banks (Note 20)	45,765	72,780
Liquid investments*	<u>1,520,825</u>	<u>1,303,741</u>
	<b>2,836,907</b>	2,310,140
Current portion of borrowings (Note 22)	<b>(1,770,884)</b>	(1,797,678)
Non-current portion of borrowings (Note 21)	<b>(3,559,722)</b>	(3,606,743)
Net debt	<b><u>(2,493,699)</u></b>	<b><u>(3,094,281)</u></b>

\* Liquid investments comprise investments classified as Level 1 and Level 2 (Note 13 (c)).

Under the terms of the borrowing facilities undertaken by the Group, the Group is required to comply with certain financial covenants by maintaining certain ratios as prescribed within the respective facility agreements (Note 21).

### *Goodwill*

The Group tests goodwill for impairment using value-in-use calculations on an annual basis. The calculations use cash flow projections based on financial budgets approved by management covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated growth that is consistent with the industry forecasts in which each Cash Generated Units (“CGU”) operates. Based on this assessment, no impairment loss has been recognized during the current year (2024: Nil).

The goodwill mainly relates to manufacturing, contracting and service operations of the Group.

### *Product registration certificates, licenses, patent and trademark*

Product registration certificates represent the value of the certificates granted by the regulatory authorities to manufacture and market certain medical and pharmaceutical products. The products registration certificates are being amortised over the useful life ranging between 5 to 15 years .

## 12 Investment properties

	2025 AED'000	2024 AED'000
At 1 January	11,189,467	10,099,681
Additions	76,318	434,740
Transferred to property, plant and equipment (Note 10)	(8,996)	(53,575)
Transferred to inventories	-	(110,000)
Sale of investment properties	(1,118,729)	(38,042)
Net gain on fair valuation	836,910	856,663
Investment property classified as held for sale	(56,206)	-
<b>At 31 December</b>	<b>10,918,764</b>	<b>11,189,467</b>

- During the year ended 31 December 2025, additions to investment properties amounted to AED 76.32 million (year ended 31 December 2024: AED 434.74 million). These mainly include acquisition of land in Ras Al Khaimah.
- The Group sold investment properties amounting to AED 1.12 billion for a consideration of AED 1.14 billion during the current year (year ended 31 December 2024: AED 38.04 million for a consideration of AED 40.1 million) and recorded gain of AED 22.93 million on sale of investment properties (year ended 31 December 2024: AED 2.06 million).
- During the year ended 31 December 2025, the Group classified a plot of land and a labour camp amounting to AED 56.21 million from investment properties to asset held for sale on which the Group recorded net fair valuation gain of AED 6.54 million (year ended 31 December 2024: Nil).  
Assets classified as held for sale amounting to AED 56.21 million (2024: Nil) are mortgaged against facilities obtained from banks.
- As at 31 December 2025, given there had been a change of use supported by observable actions, the Group reclassified an amount of AED 9 million from investment properties to property, plant and equipment (2024: AED 53.58 million) (Note 10).

### Investment properties comprises the following:

	2025 AED'000	2024 AED'000
Infrastructure and ancillary facilities	6,488,879	6,277,796
Plots of land for future development and under development	813,310	1,664,567
Retail and commercial facilities	1,926,136	1,572,168
Residential units	1,138,284	1,189,932
Labor camps and warehouses	552,155	485,004
	<b>10,918,764</b>	<b>11,189,467</b>

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 12 Investment properties (continued)

### (a) *Infrastructure and ancillary facilities:*

These are built on the land (Plot number 598-0100 and 597-0100 located in Jebel Ali Industrial Area) obtained from the Government of Dubai on a renewable, non-cancellable long-term lease of 99 years. The Group was exempted to pay the lease rentals for the first ten years and thereafter, starting 1 February 2009, 20% of the net realised profits from real estate activities are payable to the Government of Dubai.

As at 31 December 2025, the Group obtained fair values of all phases, and the valuations were carried out using the income valuation approach, after taking into consideration the cash outflows resulting from the estimated 20% share of the net realised profits due to the Government of Dubai. The fair valuation gain of AED 613.51 million (2024: fair valuation gain of AED 480.36 million) has arisen due to inclusion of subleasing fee in net cashflows, changes in the contractual and expected net cash flows based on the terms of the lease contracts with tenants and decrease in incremental cash outflow arising from change in assumptions of operating overhead.

Since the valuation of all completed phases by the independent registered valuer is based on future net cash flows, an adjustment has been made for rent accrued on the straight-line basis as per IFRS 16. Similarly, the unearned rent billed in advance and recognised liabilities for 20% share of the Government of Dubai at the valuation date have been included in the valuation of investment properties.

Significant unobservable inputs in the fair value measurement comprises of future contractual rental cash inflows, discount rate and outgoing expenses.

### (b) *Plots of land for future development and under development:*

These comprise of:

- (i) a plot of land received by a subsidiary from the Government of Fujairah;
- (ii) a plot of land received by a subsidiary from Government of Angola; and
- (iii) other plots of land for residential and commercial development

As at 31 December 2025, the fair valuation of the plots of land has been carried out using the sales comparison and income capitalisation approach as appropriate, resulting in a net fair valuation gain of AED 88.72 million (2024: net fair valuation gain of AED 218.08 million).

Significant unobservable inputs in the fair value measurement comprises of market sales rates.

Plots of land for future development and under development amounting to AED 41.20 million (2024: AED 129 million) are mortgaged against facilities obtained from a bank. Further, the insurance over these properties is also assigned in favor of the bank.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 12 Investment properties (continued)

### (c) Residential units.

The residential units have been valued using the sales comparison approach resulting in a net fair valuation gain of AED 40.51 million (2024: fair valuation gain of AED 110.35 million).

Significant unobservable inputs in the fair value measurement comprises of market sales rates.

Residential properties amounting to AED 377.13 million (2024: AED 328.73 million) are mortgaged against facilities obtained from a bank. Further, the insurance over these properties is also assigned in favor of the bank.

### (d) Retail and commercial facilities:

These comprise of:

- (i) A mixed-use building which has been leased on operating leases;
- (ii) A mixed-use building constructed on a plot of land granted by the Government of Fujairah;
- (iv) School campuses; and
- (iv) Other retail and commercial facilities on operating leases.

The retail and commercial facilities have been valued using the income capitalisation approach or income valuation approach, as appropriate, resulting in a net fair valuation gain of AED 62.70 million (2024: fair valuation gain of AED 57.14 million).

Significant unobservable inputs in the fair value measurement mainly include future market rental cash inflows and capitalisation yield rates.

The retail and commercial facilities amounting to AED 637.0 million (2024: AED 822.8 million) are mortgaged against facilities obtained from a bank. Further, the insurance over these properties is also assigned in favor of the bank.

### (e) Labor camps and warehouses:

The fair valuation of labor camps and warehouses at the reporting date has been determined by using the sales comparison and income capitalisation approach resulting in a net fair valuation gain of AED 31.47 million (2024: fair valuation loss of AED 9.27 million).

Significant unobservable inputs in the fair value measurement mainly includes: future market rental cash inflows and capitalisation yield rates.

The labor camps and warehouses amounting to AED 7.53 million (2024: AED 33.20 million) are mortgaged against facilities obtained from a bank. Further, the insurance over these properties is also assigned in favor of the bank.

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 12 Investment properties (continued)

### Valuation processes

The Group's investment properties were valued at 31 December 2025 by independent registered valuers in accordance with the RICS Valuation – Global Standards issued by the Royal Institute of Chartered Surveyors taking into account requirements of IFRS 13 'Fair value measurements'. For all investment properties, their current use equates to the highest and best use. Management review the valuations performed by the independent registered valuers for financial reporting purposes which among other things include:

- provision and verification of all major inputs to the independent valuation reports;
- assessment of property valuation movements when compared to the prior year valuation reports; and
- discussions with the independent registered valuers.

### Valuation techniques underlying management's estimation of fair value

The valuations were determined by independent registered valuers based on below significant unobservable inputs. In determining a property's valuation, the valuers take into account property specific information such as the current contracted tenancy agreements and forecast operating expenses. They apply certain assumptions such as capitalisation yield rates, void rates, discount rates and estimated market rent, which are influenced by specific characteristics, such as property location, income return and occupancy of each property in the portfolio, to arrive at the final valuation.

The valuation basis and assumptions used for valuation of investments properties remains largely consistent with the methodology adopted as at 31 December 2024 other than inclusion of subleasing fee income into future cashflows and change in assumptions of payroll cost.

Valuation technique	Significant unobservable inputs (2025 and 2024)	Inter relationship between key unobservable inputs and fair value measurement
Income capitalization approach: the method is based on valuing properties based on the income produced. The income approach is computed by taking the net operating income of the property collected and dividing it by the capitalization rate.	<b>Rental growth</b> – 2% <b>Yield rates:</b> 6% to 12% <b>Operating expenses:</b> ranging from 5% to 32% of rental income.	
Income approach: Income approach provides an indication of fair value by converting future cash flows to a single current capital value.	<b>Rental growth</b> – no growth considered for the remaining contractual period <b>Discount rates:</b> 7.5% to 8.5%	The expected fair value would increase/ (decrease) if the inputs changed.
Under the discounted cash flows ("DCF") method the forecasted cash flow is discounted back to the valuation date, resulting in a present value of the asset.	<b>Operating expenses:</b> ranging from 28% to 31% of rental income.	
Sales comparison approach - The market approach reflects recent transaction prices for similar properties, adjusted for differences in location, size and condition of the property.	<b>Market rates:</b> ranging from AED 172 per sq. ft to AED 2,416 per sq. ft

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 12 Investment properties (continued)

### Valuation techniques underlying management's estimation of fair value (continued)

Significant unobservable inputs:

#### (a) *Infrastructure and ancillary facilities:*

Future contractual rental cash inflows	based on the actual location, type and quality of the properties and supported by the terms of any existing leases, such as market rental growth and rent-free periods. If rental rates were 10% higher/lower, the valuation would have been AED 328 million higher/ lower respectively (2024: AED 295 million higher/lower respectively), with all other variables remaining constant.
Discount rate	reflecting current market assessments of the uncertainty in the amount and timing of cash flows. If discount rate was 1% higher/lower, the valuation would have been AED 645 million lower/AED 845 million higher respectively (2024: AED 653 million lower/AED 852 million higher respectively), with all other variables remaining constant.
Outgoing expenses	including necessary maintenance and other expenses to maintain functionality of the properties for their expected useful life. If maintenance and operating costs were 10% higher/lower, the valuation would have been AED 102 million lower/higher respectively (2024: AED 105 million lower/higher respectively), with all other variables remaining constant.

#### (b) *Plots of land for future development and under development*

Market sales rates	based on the estimated selling price of comparable properties and taking into account the market data at the date of valuation. If the market sales rate were 10% higher/lower the valuation would have been AED 173.97 million higher/lower respectively (2024: AED 165 million higher/lower respectively), with all other variables remaining constant.
--------------------	---

#### (c) *Residential units*

Market sales rates	based on the actual location, type and quality of the properties and supported by the terms of any existing leases, such as market rental growth and rent-free periods. If rental rates were 10% higher/lower, the valuation would have been AED 61 million higher/lower respectively (2024: AED 69 million higher/lower respectively), with all other variables remaining constant.
--------------------	--

## 12 Investment properties (continued)

### Valuation techniques underlying management's estimation of fair value (continued)

Significant unobservable inputs: (continued)

#### (d) Retail and commercial facilities

Future market rental cash inflows based on the actual location, type and quality of the properties and supported by the terms of any existing leases, such as market rental growth and rent-free periods. If rental rates were 10% higher/lower, the valuation would have been AED 32 million higher/lower respectively (2024: AED 36 million higher respectively), with all other variables remaining constant.

Capitalisation yield rates based on the actual location, size and quality of the properties and taking into account market data at the valuation date. If capitalisation yield rates were 1% higher/lower, the valuation would have been AED 164 million lower/AED 237 million higher respectively (2024: AED 161 million lower/AED 172 million higher respectively), with all other variables remaining constant.

#### (e) Labor camps and warehouses

Future market rental cash inflows based on the actual location, type and quality of the properties and supported by the terms of any existing leases, such as market rental growth and rent-free periods. If rental rates were 10% higher/lower, the valuation would have been AED 44 million higher/lower respectively (2024: AED 44 million higher/lower respectively), with all other variables remaining constant.

Capitalisation yield rates based on the actual location, size and quality of the properties and taking into account market data at the valuation date. If capitalisation yield rates were 1% higher/lower, the valuation would have been AED 23 million lower /AED 27 million higher respectively (2024: AED 24 million lower/AED 27 million higher respectively), with all other variables remaining constant.

### Fair value hierarchy

The fair value of investment properties is classified under level 3 fair value hierarchy.

The following table shows reconciliation from the opening balances to the closing balances for Level 3 fair values.

	2025 AED'000	2024 AED'000
At 1 January	11,189,467	10,099,681
Additions	76,318	434,740
Transferred to property, plant and equipment (Note 10)	(8,996)	(53,575)
Transferred to inventories (Note 17)	-	(110,000)
Sale of investment properties	(1,118,729)	(38,042)
Net gain on fair valuation	836,910	856,663
Investment property classified as held for sale	(56,206)	-
<b>At 31 December</b>	<b>10,918,764</b>	<b>11,189,467</b>

## 13 Financial investments

	2025 AED'000	2024 AED'000
(i) Investments at fair value through other comprehensive income - Note 13 (a)		
Equity securities	92,867	79,852
(ii) Investments at fair value through profit or loss - Note 13 (b)		
Held for trading quoted equity securities	442,400	249,446
Funds, bonds and unquoted equity securities	2,316,279	1,985,336
	<b>2,758,679</b>	<b>2,234,782</b>
<b>Geographical distribution of investments:</b>		
UAE	832,045	669,502
Other GCC countries	499,792	322,125
Other countries	1,519,709	1,323,007
(i)+(ii)	<b>2,851,546</b>	<b>2,314,634</b>

Investments in funds, bonds and unquoted equity securities with a fair value of AED 339 million (2024: AED 312 million) are pledged in favor of banks against borrowings availed (Note 22).

### Sensitivity analysis – equity price risk

The Group's investments in quoted equity securities are listed on various MENA stock exchanges. For such investments classified as fair value through profit or loss, a 10 % increase/(decrease) in the equity prices at the reporting date would have increased/(decreased) profit by AED 69.81 million (2024: AED 56.62 million).

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 13 Financial investments (continued)

### (a) Investments at fair value through other comprehensive income

These mainly include 5% shareholding in SAYACORP B.S.C.(c), which is based in the Kingdom of Bahrain focused on investment, financing and service needs of the energy sector.

### (b) Investments at fair value through profit or loss

The major investments are in bonds, funds, quoted and unquoted equity securities, sukuks and managed funds.

The Group has invested AED 319.73 million (2024: AED 298.5 million) in diversified fixed income bonds portfolio (held for trading) and AED 392.16 million (2024: AED 343.69 million) in managed equity funds by utilising a related leverage facility of AED 332 million (2024: AED 302 million). Most of these bonds have counterparty credit rating of investment grade and having maturity of medium to long term.

### (c) Measurement of fair values

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Quoted market price (unadjusted) in an active market. The fair values are based on market price at the valuation date. The Group's investment in held for trading quoted equity securities are classified in this category.

Level 2: Valuation techniques based on observable inputs, either directly (i.e., as prices) or indirectly (i.e., derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted market prices for identical or similar instruments in markets that are considered less active; broker quotes; or other valuation techniques where all significant inputs are directly or indirectly observable from market data. The Group's investment in structured funds, sukuks and bonds are classified in this category.

Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation techniques include inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

In certain cases, the valuation is also determined based on fund manager valuation reports and project progress reports. The Group's investment in unquoted equity securities and managed funds are classified in this category. Generally, a change in underlying comparative data used for estimating fair value is accompanied by a change in the fair value.

The Group has reviewed the fair value of investments classified as fair value through profit or loss and accordingly, a gain of AED 150.20 million has been recorded in the consolidated statement of profit or loss during the current year (2024: AED 114.22 million).

The Group has reviewed the fair value of investments in unquoted equity securities classified as fair value through other comprehensive income and accordingly, net change in fair value of AED 13.03 million has been recorded during the current year in other comprehensive income (2024: loss of AED 0.42 million).

### (c) Measurement of fair values (continued)

The table below analyses financial instruments, measured at fair value at the end of the reporting period, by the level in the fair value hierarchy into which the fair value measurement is categorised:

<b>31 December 2025</b>	<b>Level 1 AED'000</b>	<b>Level 2 AED'000</b>	<b>Level 3 AED'000</b>	<b>Total AED'000</b>
Financial assets at fair value through profit or loss	<b>452,323</b>	<b>1,068,358</b>	<b>1,237,998</b>	<b>2,758,679</b>
Financial assets at fair value through other comprehensive income	<b>144</b>	<b>-</b>	<b>92,723</b>	<b>92,867</b>
	<b>452,467</b>	<b>1,068,358</b>	<b>1,330,721</b>	<b>2,851,546</b>
<b>31 December 2024</b>	<b>Level 1 AED'000</b>	<b>Level 2 AED'000</b>	<b>Level 3 AED'000</b>	<b>Total AED'000</b>
Financial assets at fair value through profit or loss	258,372	1,045,159	931,251	2,234,782
Financial assets at fair value through other comprehensive income	210	-	79,642	79,852
	<b>258,582</b>	<b>1,045,159</b>	<b>1,010,893</b>	<b>2,314,634</b>

### Reconciliation of Level 3 fair values measurements of investments

	<b>2025 AED'000</b>	2024 AED'000
As at 1 January	<b>1,010,893</b>	868,936
Additions during the year	<b>409,890</b>	324,020
Redeemed/sold during the year	<b>(141,669)</b>	(260,618)
Transfers in level 3	<b>(15,670)</b>	-
<b>Gain recorded in OCI</b>		
- Net change in fair value (unrealised)	<b>13,081</b>	(423)
<b>Gain/(loss) recorded in profit or loss</b>		
- Net change in fair value (unrealised)	<b>54,196</b>	78,978
As at 31 December	<b>1,330,721</b>	1,010,893

### Sensitivity analysis

For investments classified as Level 3, a 10% increase/(decrease) in the NAV at the reporting date would have increased/(decreased) profit by AED 133.07 million (2024: AED 101.09 million).

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 14 Other financial assets at fair value through profit or loss

	2025 AED'000	2024 AED'000
Other financial assets at fair value through profit or loss	<u>16,791</u>	<u>17,988</u>

In the current year, financial assets at fair value through profit of loss represent receivables from the Road Transport Authority ('RTA') for an intersection construction cost incurred by the one of the subsidiaries. In the previous year, financial assets at fair value through profit of loss represented receivables from Dubai Electricity and Water Authority for a substation cost incurred by the one of the subsidiaries.

The fair valuation of these receivables have been determined using a present value of expected cash flows. As there are significant unobservable inputs used in determining fair value of this receivable, it has been categorised as a level 3 financial instrument.

## 15 Investment in equity accounted investees'

	2025 AED'000	2024 AED'000
Investment in joint ventures (refer (i) below)	931,777	977,150
Investment in associates (refer (ii) below)	<u>516,949</u>	<u>512,939</u>
Total investment in equity accounted investees	<u>1,448,726</u>	<u>1,490,089</u>

### (i) Joint ventures

The following are the investments in joint ventures held by the Group as at 31 December 2025:

#### a) Emicool District Cooling LLC ("Emicool")

On 25 July 2022, the Group sold its 50% equity interest in the wholly owned subsidiary Emicool District Cooling LLC ("Emicool"). Subsequently, the retained investment of 50% in Emicool has been remeasured at fair value and accounted for as a joint venture under 'investment in an equity accounted investee'. Emicool District Cooling LLC is a limited liability company incorporated in the UAE. The principal activities are to generate, distribute and sell chilled water along with associated metering and billing services in district cooling systems for air conditioning purposes.

#### b) QDI Sport Management Company LLC ("QDI")

QDI, a limited liability company incorporated in the UAE, is a joint venture between the Group and Al Qudra Sports Management LLC. The principal activities of the joint venture are to engage in sports clubs and facilities management and other sports related activities within the UAE. The Group effectively owns 50% equity in this entity.

#### c) Palisades Development Company LLC

This is a limited liability company registered in the UAE. The principal activities of the entity is management and administration of a project undertaken on plots of land located in Dubai Investments Park. The Group effectively owns 50 % equity in this entity.

The carrying amount of the interest in Palisades Development Company LLC is Nil as at 31 December 2025 (2024: Nil).

## 15 Investment in equity accounted investees' (continued)

(iii) The movement in investment in equity accounted investees' is as follows:

	2025 AED'000	2024 AED'000
At 1 January	1,490,089	1,506,287
Investments made during the year	3,548	79,513
Dividend received during the year	(153,697)	(160,346)
Group's share of profit for the year	107,901	84,822
Group's share of profit/(loss) in other comprehensive income/(loss)	2,084	(5,538)
Group's share of exchange difference on translation	(1,199)	(14,649)
<b>At 31 December</b>	<b>1,448,726</b>	<b>1,490,089</b>

## 16 Rent receivable

Rent receivable represents the differential between the amount billed to tenants and the amount recognised as rental income on a straight-line basis over the term of the lease. The difference principally arises due to an initial rent-free period allowed and the rent increase agreed after the expiry of the initial term of the lease.

## 17 Inventories

	2025 AED'000	2024 AED'000
Raw materials, work-in-progress and spares (net of provision for write down to net realisable value)	190,527	200,287
Finished goods	46,901	49,392
Goods in transit	802	848
Properties held for development and sale (net of provision for write down to net realisable value)	644,656	772,133
	<b>882,886</b>	<b>1,022,660</b>

During the previous year, the Group had reclassified an amount of AED 5.28 million from inventories to property plant and equipment (Note 10) during the year ended 31 December 2024.

The total of inventories being carried at net realizable value amounts to AED 73.59 million as at 31 December 2025 (2024: AED 107.65 million).

Properties held for development and sale represent cost of land and expenditure incurred towards a residential project in Mirdif and Jumeirah Village Circle, mixed used development in Marjan Island and Meydan, and land ear-marked for development projects for subsequent sale. The Group intends to develop these properties for sale and has classified certain properties as long term based on future development plans.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 17 Inventories (continued)

Net realisable values for properties held for development and sale have either been estimated by independent registered valuers in accordance with the RICS Valuation – Global Standards issued by the Royal Institute of Chartered Surveyors or internally using a combination of valuation techniques including the sales comparison approach and income capitalisation approach. Based on this, no provision for write down to net realisable value has been recognised during the current year (2024: Nil).

As at 31 December 2025, the Group is carrying a provision on properties held for development and sale amounting to AED 3.85 million (2024: AED 3.85 million).

Inventories amounting to AED 157 million (2024: AED 180 million) are mortgaged against facilities obtained from banks. In certain instances, the insurance over inventories is also assigned in favor of banks.

## 18 Trade receivables

Gross trade receivables amount to AED 3,957.78 million (2024: AED 3,225.29 million) while provision for impairment loss amounts to AED 746.76 million (2024: AED 739.10 million). Trade receivables that are expected to be realised after twelve months from the reporting date have been classified as non-current.

Trade receivables amounting to AED 618.34 million are assigned against the facilities availed from the banks as at 31 December 2025 (2024: AED 582.04 million).

## 19 Due from related parties and other receivables

	2025 AED'000	2024 AED'000
<b>Non – current</b>		
Due from related parties	60,283	-
Capital advance	6,343	1,402
	<u>66,626</u>	<u>1,402</u>

Cash at bank within UAE (current accounts)	852,515	604,802
Cash at bank outside UAE – GCC Countries (current accounts)	3,512	2,161
Cash at bank outside UAE – Other countries (current accounts)	71,117	80,064
Short term deposits within UAE having original maturity of less than 3 months	<u>342,367</u>	<u>245,285</u>
<b>Total cash and cash equivalents</b>	<u>1,270,317</u>	<u>933,619</u>

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 21 Long-term bank borrowings

	2025 AED'000	2024 AED'000
Borrowings	4,274,395	4,253,003
Less: current portion (Note 22)	<u>(714,673)</u>	<u>(646,260)</u>
Long-term borrowings	<u>3,559,722</u>	<u>3,606,743</u>

- (i) The terms of the bank borrowings vary from one to ten years. These are secured by a combination of the Company's corporate guarantee, mortgages over certain investment properties, inventories, trade receivables, property, plant and equipment, assignment of receivables and insurance policies over assets of the Group and lien on bank deposits. The interest rate of majority of the bank borrowings range between 0.45% to 3.5% over EIBOR /SOFR p.a. Where there is a corporate guarantee, the Company's liability is generally restricted to its percentage of equity interest in the borrowing entity.
- (ii) For certain term loan facilities, the Group is required to comply with debt service coverage ratios, leverage ratio and minimum net worth. The Group is in compliance of these covenants as at 31 December 2025.

## 22 Bank borrowings

	2025 AED'000	2024 AED'000
Bank overdraft	162,069	105,730
Trust receipts	62,100	82,154
Short term loans	832,042	963,534
Current portion of long-term bank borrowings (Note 21)	<u>714,673</u>	<u>646,260</u>
	<u>1,770,884</u>	<u>1,797,678</u>

The bank borrowings are secured by a combination of mortgages and corporate guarantees. Where there is a corporate guarantee, the Group's liability is mostly restricted to its percentage of equity interest in the borrowing entity.

Short term loans amounting to AED 332.04 million (2024: AED 301.51 million) have been obtained for investments in bonds, funds and structured products and are secured against the pledge of those investments in favor of banks (Note 13).

The Group had access to undrawn banking facilities of AED 2,262.45 million as at 31 December 2025 (2024: AED 1,936.27 million).

Other payables and accrued expenses*	<u>893,374</u>	<u>743,234</u>
	<u>2,237,033</u>	<u>1,866,789</u>

\*include provisions for expired stock, accruals related to ongoing real estate projects, provision for Directors' fees, and other accruals.

## 25 Share capital and share premium

	2025 AED'000	2024 AED'000
<i>Authorised</i>		
8,000,000,000 shares of AED 1/- each (2024: 8,000,000,000 shares of AED 1/- each)	<u>8,000,000</u>	<u>8,000,000</u>
<i>Issued and paid up</i>		
4,252,019,585 shares of AED 1/- each (2024: 4,252,019,585 shares of AED 1/- each)	<u>4,252,020</u>	<u>4,252,020</u>

In the year 1998, 5,474 unallocated shares were sold at the prevailing market price to a shareholder, at a premium of AED 46,000.

## 26 Capital reserve

Capital reserve comprises the net gain on sale of the Company's own shares (treasury shares) by a subsidiary of the Company in earlier years.

## 27 Legal and general reserve

In accordance with the Articles of Association of the Company and entities within the Group and the UAE Federal Law No. 32 of 2021 as amended:

- 10% of the net profit for the year of the Company is to be transferred to the legal reserve.
- 5% of the net profit for the year of the individual entities within the Group, to which the law is applicable, or rate specified in Articles of Association of the entities whichever is higher, is to be transferred to the legal reserve.

Such transfer may be discontinued when the legal reserve equals 50% of the paid up share capital of the respective individual entities. This reserve is non-distributable except in certain circumstances as mentioned in the above-mentioned law.

Further, in accordance with the Articles of Association of the Company and entities within the Group, further allocation to general reserve has been discontinued with effect from 2023.

Accordingly, the Company and entities within the Group, where applicable, have transferred amounts to legal reserve.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 28 Fair value reserve

The fair value reserve comprises the cumulative net change in the fair value of investments classified as fair value through other comprehensive income (Note 13) and gain on revaluation of property, plant and equipment (Note 10).

## 29 Foreign currency translation reserve

The foreign currency translation reserve comprises the exchange difference arising on translation of equity accounted investees' and recognised under other comprehensive income (Note 15).

## 30 Proposed cash dividend and directors' fee

For the year ended 31 December 2025, the Board of Directors have proposed a cash dividend of 25% (AED 0.25 per share) to the shareholders of the Company.

At the Annual General Meeting held on 16 April 2025, the shareholders approved a 18 % (AED 0.18 per share) cash dividend proposed by the Board of Directors. The dividend amounting to AED 765.36 million was distributed in May 2025.

Directors' fees amounting to AED 30 million has been proposed during the year ended 31 December 2025 (2024: AED 22.50 million) which represents compensation for professional services rendered by the Directors and included under administrative expenses (Note 7).

At the Annual General Meeting held on 16 April 2025, the shareholders approved the proposed Directors' fee amounting to AED 22.50 million for the year ended 31 December 2024.

## 31 Basic and diluted earnings per share

The calculation of basic and diluted earnings per share is based on the profit attributable to Owners of the Company and a weighted average number of ordinary shares outstanding calculated as follows:

	2025	2024
Profit attributable to Owners of the Company (AED '000)	<u>1,550,116</u>	<u>1,205,375</u>
Weighted average number of shares outstanding ('000s)	<u>4,252,020</u>	<u>4,252,020</u>
Basic and diluted earnings per share (AED)	<u>0.36</u>	<u>0.28</u>

## 32 Commitments

	2025	2024
	AED'000	AED'000
Total commitments	<u>984,119</u>	<u>735,135</u>

Commitments mainly includes the following operating commitments:

- value of construction contracts awarded to contractors for real estate projects under development.
- One of the subsidiaries of the Group has signed an agreement with RTA to share the cost of infrastructure and development works of the adjoining areas. Total outstanding commitment as at 31 December 2025 amounts to AED 101.8 million (2024: AED 130.8 million) which will be invoiced and paid until 2029, in semi-annual instalments of AED 14.5 million each.

The Group's share of capital commitments in the equity accounted investees' amounted to AED 31.25 million (2024: AED 44.67 million).

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 33 Contingent liabilities

The Group has contingent liabilities in respect of letters of guarantee and letters of credit amounting to AED 206 million (2024: AED 139 million) as at 31 December 2025. Further, the Group's share of contingent liabilities in the equity accounted investees' amounted to AED 145 million (2024: AED 148.19 million).

## 34 Lease rentals

*Leases as lessor*

The Group leases out its investment properties under operating lease. The minimum undiscounted lease payments receivable under non-cancellable leases are as follows:

	2025 AED'000	2024 AED'000
Less than one year	791,643	761,670
Between one to two years	744,119	697,347
Between two to three years	702,697	696,036
Between three to four years	703,459	686,604
Between four to five years	706,161	685,536
More than 5 years	5,197,916	5,433,520
	<u>8,845,995</u>	<u>8,960,713</u>

## 35 Related party transactions

The Group, in the normal course of business, carries out transactions with other business enterprises that fall within the definition of related parties contained in International Accounting Standard 24.

Related party transactions are entered at mutually agreed terms.

The aggregate value of significant transactions with related parties during the year was as follows:

	2025 AED'000	2024 AED'000
Dividend received from equity accounted investees'	153,697	160,346
Sale of properties	24,377	28,712
Rental income	7,017	4,541
Interest income	2,838	2,233
Management fee income	4,897	-
Insurance premium	6,213	6,587
Cooling charges	7,867	7,408

Compensation to key management personnel, including Directors' fees is as follows:

Short-term benefits (including Directors' fees)	58,987	45,623
Post-employment benefits	628	498

## 36 Non-controlling interests

During the year ended 31 December 2025, non-controlling interest contributed additional amount of AED 93.05 million in one of the subsidiaries and subscribed additional units in Al Mal Capital REIT, amounting to AED 56.06 million (2024: AED 33.54 million).

Further, the Group does not have any individually material non-controlling interests in any of its subsidiaries as at 31 December 2025.

## 37 Investment in subsidiaries (continued)

- (b) During the year ended 31 December 2025, the Company acquired additional 10.76% equity interest in its existing subsidiary Al Mal Capital PSC. Post-acquisition of additional interest, the Company's shareholding in Al Mal Capital PSC has increased to 83.95%.
- (c) During the year ended 31 December 2025, the Company subscribed units in Al Mal Capital REIT along with units subscribed by minority shareholders of Al Mal Capital REIT. Subsequent to this, the Group's effective shareholding in Al Mal Capital REIT is 75.99%.

During the year ended 31 December 2024, the Group subscribed additional units in Al Mal Capital REIT pursuant to right issues and sold certain units to National General Insurance PJSC. Subsequent to this, the Group's effective shareholding in Al Mal Capital REIT is 76.29%.

During the year ended 31 December 2024, the Group acquired 100% equity interest in Carnation Education LLC which primarily holds the land and building related to education facilities in Dubai.

- (d) Subsequent to year ended 31 December 2025, the Company transferred its 100% equity stake in Dubai Investments Park Development Company LLC to its fully owned subsidiary DIP Holding Limited.
- (e) During the year ended 31 December 2025, the Group acquired additional 50% of Agricorp Investments Limited (refer Note 15). The Group now holds 100% equity interest in the Agricorp Investments Limited.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 38 Income tax

	2025 AED'000	2024 AED'000
<b>Consolidated income statement</b>		
Current income tax expenses	94,332	52,999
Reversal of prior period tax	(256)	-
Deferred tax expense	60,323	61,758
	<u>154,399</u>	<u>114,757</u>
<b>Movement of net deferred tax liabilities</b>		
	2025 AED'000	2024 AED'000
Net deferred tax liability balance at beginning of the year	81,288	19,530
Net expense for the period	60,323	61,758
Expense related to other comprehensive income	1,177	-
Net deferred tax liabilities balance at the end of the year	<u>142,788</u>	<u>81,288</u>
<b>Disclosed as:</b>		
Deferred tax liabilities	163,436	94,792
Deferred tax assets	(20,648)	(13,504)
Net deferred tax liabilities	<u>142,788</u>	<u>81,288</u>

Differences between IFRS and statutory taxation regulations in the UAE give rise to temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and their tax bases.

The deferred tax assets and liabilities mainly relates to fair valuation gain and losses on investment properties, tax depreciation on investment properties, fair valuation gain and losses on investments and purchase price allocation adjustments relating to the acquisition of subsidiaries in prior years.

On 23 June 2025, the UAE Ministry of Finance issued Ministerial Decision No. 173 of 2025, introducing depreciation adjustments for investment properties held at fair value under the UAE Corporate Tax Law, effective from 1 January 2025. In accordance with this Decision, the entity is eligible to claim a tax depreciation deduction at the lower of 4% of the original cost or the tax written down value of its investment properties, as the investment properties are accounted for at fair value and the entity has elected for taxation on a realisation basis. Accordingly, the relevant entities of the Group have claimed tax depreciation on investment properties and related deferred tax liability impact has been accounted for, as this tax depreciation creates temporary difference on account of being required to be reversed in the event of sale from Corporate tax perspective.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 38 Income tax (continued)

Income tax expense relates to the tax payable on the results of the Group, as adjusted in accordance with the taxation laws and regulations of the jurisdictions in which the Group operate. The relationship between the tax expenses and the accounting profit can be explained as follows:

	<b>2025</b>	2024
	<b>AED'000</b>	AED'000
Profit before tax	<b>1,702,421</b>	1,295,618
Accounting profit subject to income tax, net	<b>1,702,421</b>	1,295,618
Adjustment in determining taxable profit:		
Income/expenses not considered in determining taxable income	<b>13,123</b>	34,681
Taxable profit	<b>1,715,544</b>	1,330,299
Net Income tax charge for the year	<b>154,655</b>	114,757
Effective tax rate	<b>9.08%</b>	8.86%

The Group has recognised income tax expense based on the estimate made by the management. The Group's operations in the UAE are subject to income tax with effect from 1 January 2024.

### *Pillar two*

The Organisation for Economic Co-operation and Development (OECD) has issued the Global Anti-Base Erosion (GloBE) Model Rules, which mandate a minimum tax rate of 15% per jurisdiction (Pillar Two). Various countries have either enacted or are in the process of enacting tax legislation to fully or partially comply with Pillar Two. The United Arab Emirates, where the Group's Ultimate Parent Entity is situated, has enacted the Cabinet Decision No. 142 of 2024 on the Imposition of Top-up Tax on Multinational Enterprises. The Group falls within the scope of these rules from 1 January 2025.

Article 9.3 of the UAE DMTT framework offers Initial Phase of International Activity (IPIA) relief, which permits a reduction of the top-up tax to zero for UAE entities for upto five years, provided that specific conditions are met. The Group fulfils the criteria for IPIA relief for FY 2025. Accordingly, Group is not required to provide for current tax under Pillar two.

There is uncertainty regarding whether the Pillar Two model rules create additional temporary differences, whether deferred taxes should be remeasured for the Pillar Two model rules, and which tax rate should be used to measure deferred taxes. In response to this uncertainty, the IASB and AASB issued amendments to IAS 12 'Income Taxes' on 23 May 2023 and 27 June 2023, respectively. These amendments introduce a mandatory temporary exception to the requirements of IAS 12, under which a company does not recognize or disclose information about deferred tax assets and liabilities related to the OECD/G20 BEPS Pillar Two model rules. The Group applied this temporary exception as of 31 December 2025.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 39 Segment reporting

The Group has broadly three reportable segments as discussed below, which are the Group's strategic business units. The strategic business units operate in different sectors and are managed separately because they require different strategies. The following summary describes the operation in each of the Group's reportable segments:

<i>Property</i>	development of real estate for sale and leasing
<i>Investments</i>	strategic minority investments in associates, investment banking, asset management and financial investments
<i>Manufacturing, contracting and services</i>	manufacture and sale of materials used in construction projects, executing construction contracts, production of raw and architectural glass, pharmaceutical products, production, aluminium extruded products, laboratory furniture, healthcare and education

Information regarding the operations of each segment is included hereafter. Performance is measured based on segment revenue and profit as management believes that profit is the most relevant factor in evaluating the results of certain segments relative to other entities that operate within these industries. There are a few transactions between the segments and such transaction are carried out on arm's length basis and are eliminated on consolidation.

The Group's revenue is mainly earned from transactions carried out in UAE and other GCC countries. Additionally, the Group's assets are mainly based in UAE.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 40 Material accounting policies

The Group has consistently applied the following accounting policies to all periods presented in these consolidated financial statements.

### 40.1 Basis of consolidation

#### (a) Business combinations

The Group accounts for business combinations using the acquisition method when the control is transferred to the Group. The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired.

The Group measures goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognised amount of any non-controlling interests in the acquiree; plus
- if the business combination has been achieved in stages, the fair value of the existing equity interest in the acquiree, less
- the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed. Any gain on bargain purchase is recognised in profit or loss.

Transaction costs are expensed as incurred except if related to the issue of debt or equity securities.

Any goodwill that arises is tested annually for impairment.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts generally are recognised in profit or loss.

Any contingent consideration is measured at fair value at the acquisition date. If an obligation to pay contingent consideration that meets the definition of financial instrument is classified as an equity, then it is not re-measured and settlement is accounted for within equity. Otherwise, other contingent consideration is measured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

#### (b) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has ability to affect those returns through its power over the entity. The financial statements of the subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

#### (c) Non-controlling interests

Non-controlling interests are measured at their proportionate share of the acquiree's identifiable net assets at the acquisition date.

Changes in Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 40 Material accounting policies (continued)

### 40.1 Basis of consolidation (continued)

#### (d) *Loss of control*

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interests and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when the control is lost. In addition, any amounts previously recognised in “other comprehensive income” in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in “other comprehensive income” are reclassified to profit or loss.

#### (e) *Interests in equity-accounted investees*

The Group’s interests in equity-accounted investees comprise interests in associates and joint ventures.

Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Group has joint control, whereby, the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in associates and the joint ventures are accounted for using the equity method. They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group’s share of profit or loss and OCI of equity-accounted investees, until the date on which significant influence or joint control ceases.

Where the Group’s share of losses in equity-accounted investees equals or exceeds its interest in the equity-accounted investees, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint venture.

Unrealised gains on transactions between the Group and its equity-accounted investees are eliminated to the extent of the Group’s interest in the joint ventures. Unrealised losses are also eliminated unless the transaction provides evidence of impairment of the asset transferred.

#### (f) *Transactions eliminated on consolidation*

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group’s interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 40 Material accounting policies (continued)

### 40.2 Revenue

The Group recognises revenue from contracts with customers based on a five step model as set out in IFRS 15:

- Step 1 Identify the contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.
- Step 2 Identify the performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.
- Step 3 Determine the transaction price: The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.
- Step 4 Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Group will allocate the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Group expects to be entitled in exchange for satisfying each performance obligation.
- Step 5 Recognise revenue when (or as) the entity satisfies a performance obligation.

The Group satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

1. The customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs; or
2. The Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
3. The Group's performance does not create an asset with an alternative use to the Group and the entity has an enforceable right to payment for performance completed to date.

For performance obligations where one of the above conditions are not met, revenue is recognised at the point in time at which the performance obligation is satisfied.

When the Group satisfies a performance obligation by delivering the promised goods or services it creates a contract asset based on the amount of consideration earned by the performance. Where the amount of consideration received from a customer exceeds the amount of revenue recognised this gives rise to a contract liability.

Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes and duty. The Group assesses its revenue arrangements against specific criteria to determine if it is acting as principal or agent. The Group has concluded that it is acting as a principal in all of its revenue arrangements.

Revenue is recognised in the statement of comprehensive income to the extent that it is probable that the economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably.

The sales commission paid where applicable, is recognised as prepaid commission and is amortised to the statement of comprehensive income over time upon fulfilment of the related performance obligation.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 40 Material accounting policies (continued)

### 40.2 Revenue (continued)

#### (a) Revenue from sale of goods

Revenue from sale of goods in the course of ordinary activities is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates. No element of financing is deemed present as the sales are made with a credit term of 30-60 days, which is consistent with market practice. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

#### (b) Revenue from sale of properties

The performance obligation with regards to sale of properties is satisfied over time, as and when construction progresses. The revenue from sale of properties is a multiple of management's total estimated cost for the construction and a percentage of completion confirmed by external consultant for each individual project.

Management estimates the cost to complete for construction of the project in order to determine the cost attributable to revenue being recognised. These estimates include the cost of constructing property, potential claims by contractors and the cost of meeting other contractual obligations to the customers.

Infrastructure cost allocated to each project is released to the consolidated statement of profit or loss, as cost of properties sold within 'cost of sales and providing services', based on the percentage of construction completed confirmed by external consultants for each project and percentage of infrastructure cost incurred at each period end to the total estimated infrastructure cost.

The performance obligation with regards to the sale of properties where the construction has been completed prior to the sale is satisfied at a point in time where the sale purchase agreement is duly executed between the group and the customer.

The Group recognises a significant financing component where the timing of payment from the customer differs from the execution of the sale purchase agreement between the customer and the Group and where that difference is the result of the Group's financing of the customers' purchase of a property over a period of up to 5 years. The difference between the consideration receivable and the cash selling price of the property sold is used to determine a discount rate for the significant financing component of the non-current trade receivable on execution of each of the respective sale purchase agreements. As installment payments are received from the customer, the deferred revenue balance is drawn down and recognised as interest income. The Group has elected to apply the practical expedient not to adjust the promised consideration where the period between the sale purchase agreement execution date and the date the customer pays for the property will be less than 1 year.

#### (c) Revenue from services rendered

Revenue from services rendered is recognised in the accounting period in which control of the services are passed to the customer, which is when the service is rendered.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## **40 Material accounting policies** (continued)

### **40.2 Revenue** (continued)

#### *(d) Rental income*

Rental income from operating leases is recognised on a straight-line basis over the lease term. When the Group provides incentives to its tenants, the cost of the incentives is recognised over the lease term, on a straight-line basis, as a reduction of rental income.

#### *(e) Contract revenue*

Contract revenue from construction of building facades and steel fabrication is measured at the transaction price agreed under the contract. Revenue is recognised over time based on the cost-to cost method. The related costs are recognised in profit or loss when they are incurred. Advances received are included in advances received from customers.

#### *(f) Dividend income*

Dividend income is recognised in profit or loss on the date that the Group's right to receive payment is established.

### **40.3 Government grant**

Government grant is initially recognised at fair value when there is a reasonable assurance that:

- (a)* the Group will comply with the conditions associated to them; and
- (b)* the grants will be received.

Government grant that compensates the Group for expenses incurred are recognised in profit or loss on a systematic basis over the periods necessary to match them with the related costs which they are intended to compensate. An unconditional government grant in the form of non-depreciable, non-monetary assets is recognised in profit or loss when the grant becomes receivable.

### **40.4 Finance income and expense**

The Group's finance income and expense comprises of the following:

- interest income;
- unwinding of discount on financial assets measured at amortised cost;
- foreign exchange gains and losses on financial assets and liabilities;
- interest costs;
- unwinding of discount on financial liabilities measured at amortised cost;
- change in fair value of derivative financial instruments;
- bank charges;
- interest expenses on lease liabilities; and foreign exchange gain/(loss);

Borrowing costs that are not directly attributable to the acquisition, construction or production of qualifying assets are recognised as expense in profit or loss using the effective interest method. However, borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of that asset. The capitalisation of borrowing costs commences from the date of incurring of expenditure relating to the qualifying asset and ceases when all the activities necessary to prepare the qualifying asset for its intended use or sale are complete. Borrowing costs relating to real estate development for sale is accounted for as a finance cost in the consolidated statement of comprehensive income. Borrowing costs relating to the period after acquisition, construction or production are expensed. Capitalisation of borrowing costs is suspended during the extended period in which the active development of a qualifying asset has ceased. Foreign currency gain or losses are represented on a net basis either as finance income or finance expense depending on whether foreign currency movements are in a net gain or net loss position.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 40 Material accounting policies (continued)

### 40.5 Property, plant and equipment

#### (a) Recognition and measurement

The Group's property, plant and equipment are stated at historical cost, less accumulated depreciation and accumulated impairment losses. Land is not depreciated.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the assets to a working condition for its intended use and capitalised borrowing costs.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses on disposal of an item of property, plant and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss.

#### (b) Reclassification to investment property

When the use of a property changes from owner-occupied to investment property, the property is re-measured to fair value and reclassified as investment property. A revaluation surplus is credited to other comprehensive income and accumulated in equity under the heading of fair value reserve and revaluation loss is charged to profit or loss. Any gain arising on re-measurement is recognised in profit or loss to the extent the gain reverses a previous impairment loss on the specific property. Any loss is recognised in other comprehensive income and presented in the revaluation reserve in equity to the extent that an amount had previously been included in the comprehensive income relating to the specific property, with any remaining loss recognised immediately in profit or loss.

#### (c) Subsequent costs

Subsequent expenditure is capitalised only when it is probable that the future economic benefits associated with the expenditure will flow to the Group. The costs of day-to-day servicing of property, plant and equipment is expensed as incurred.

#### (d) Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value. Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each component, since this mostly reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term.

Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management.

The estimated useful lives for the current and comparative years of significant items of property, plant and equipment are as follows:

	<b>Years</b>
Buildings	5-33
Plant and equipments	3-50
Office equipments and furniture	3-10
Motor vehicles	3-7
Roads and infrastructure	10-15

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## **40 Material accounting policies** (continued)

### **40.5 Property, plant and equipment** (continued)

#### *(d) Depreciation* (continued)

Depreciation methods, useful lives and residual values are reviewed at each reporting period and adjusted if appropriate. Capital work-in-progress is stated at cost and includes assets that are being developed for future use. On completion of construction / once commissioned, capital work-in-progress is transferred to the respective category within property, plant and equipment, and depreciated in accordance with the Group's policy.

#### *(e) Leased assets*

Leases in terms of which the Group assumes all the risks and rewards of ownership are classified as finance leases. Assets acquired by way of finance lease is stated at an amount equal to the lesser of the asset's fair value and the present value of the minimum lease payment at inception of the lease, less accumulated depreciation and impairment losses (if any).

### **40.6 Intangible assets**

#### *(a) Subsequent measurement*

Goodwill is tested annually for impairment and is carried at cost less accumulated impairment losses.

#### *(b) Other intangible assets*

Other intangible assets including technical know-how, product registration certificates, licenses and patents and trademarks, concession rights and customer contracts that have finite useful lives are stated at cost less accumulated amortisation and accumulated impairment losses. These are amortised as per management's estimate of their useful life, which is between 5 to 15 years.

#### *(c) Subsequent expenditure*

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred. Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

### **40.7 Investment properties**

Investment properties are properties held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administration purposes. Where the Group provides ancillary services to the co-occupants of a property, it treats such a property as investment property if the services are a relatively insignificant component in the arrangement as a whole.

An investment property is measured at cost on initial recognition and subsequently at fair value with any changes therein are recognised in profit or loss.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## **40 Material accounting policies** (continued)

### **40.7 Investment properties** (continued)

Cost includes expenditure that is directly attributable to the acquisition of the investment property. The cost of self-constructed investment property includes the cost of materials and direct labour, any other costs directly attributable to bringing the investment property to a working condition for their intended use and capitalised borrowing costs.

The fair value adjustments on investment properties are included in profit or loss as investment returns in the period in which these gains or losses arise. In determining the carrying amount of investment properties, the Group does not double count assets or liabilities that have already been recognised as separate assets or liabilities.

When the use of a property changes such that it is reclassified as property, plant and equipment or inventories, its fair value at the date of reclassification becomes its cost for subsequent accounting.

Any gain or loss on disposal of an investment property (calculated as the difference between the net proceeds from disposal and the carrying amount of the property) is recognised in profit or loss.

### **40.8 Inventories**

Inventories comprise finished goods, raw materials, work-in-progress, spares and properties held for development and sale.

#### *(a) Finished goods, raw materials, work-in-progress and spares*

These are measured at lower of cost and net realisable value. The cost of raw materials and spares are based on the weighted average cost method and includes expenditure incurred in acquiring the inventories and bringing them to their existing location and condition. Finished goods are stated at cost of raw material and also include an appropriate proportion of overheads. Work-in-progress is stated at cost of raw materials and directly attributable overheads. Net realisable value is the estimated selling price in the ordinary course of business less estimated selling expenses.

#### *(b) Properties held for development and sale*

Properties held for development and sale are classified as inventories and stated at the lower of cost and net realisable value. Cost includes the aggregate cost of development and other direct expenses. Net realisable value is estimated by the management, taking into account the expected price which can be ultimately achieved, based on prevailing market conditions and the anticipated costs to completion.

The amount of any write down of properties held for development and sale is recognised as an expense in the period the write down or loss occurs. Any reversal of write down arising from an increase in net realisable value is recognised in profit or loss in the period in which the increase occurs.

### **40.9 Contract work-in-progress**

Contract work-in-progress represents the gross unbilled amount expected to be collected from customers for contract work performed to date. It is measured at contract cost incurred plus profits recognised to date less progress billing and less recognised losses. Contract work-in-progress is presented as part of other receivables in the statement of financial position for all contracts in which costs incurred plus recognised profits exceed progress billings. If progress billings exceed costs incurred plus recognised profits, then the difference is presented as part of other payables in the statement of financial position.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 40 Material accounting policies (continued)

### 40.10 Financial instruments

#### (a) Non-derivative financial assets

The Group initially recognises financial assets on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

Financial assets are initially measured at fair value. If the financial asset is not subsequently measured at fair value through profit or loss, the initial measurement includes transaction costs that are directly attributable to the asset's acquisition or origination. The Group subsequently measures financial assets at either amortised cost or fair value.

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction when substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in such transferred financial asset that is created or retained by the Group is recognised as a separate asset or liability.

#### (i) Financial assets measured at fair value

A financial asset is subsequently measured at amortised cost using the effective interest method and net of any impairment loss, if:

- the asset is held within a business model with an objective to hold assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest.

Financial assets measured at amortised cost comprise trade receivables, due from related parties, other receivables, rent receivables and cash and cash equivalents.

Financial assets other than those classified as financial assets measured at amortised cost are subsequently measured at fair value with all changes in fair value recognised in profit or loss.

However, for investments in equity instruments that are not held for trading, the Group may elect at initial recognition to present gains and losses in other comprehensive income on an instrument by instrument basis. For instruments measured at fair value through other comprehensive income, gains and losses are never reclassified to profit or loss and no impairments are recognised in profit or loss.

Dividends earned from such investments are recognised in profit or loss unless the dividends clearly represent a recovery of part of the cost of the investment.

#### *Cash and cash equivalents*

Cash and cash equivalents comprise cash and bank balances and fixed deposits (with maturity of less than three months). Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the consolidated statement of cash flows.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## **40 Material accounting policies** (continued)

### **40.10 Financial instruments** (continued)

#### *(b) Non-derivative financial liabilities*

The Group initially recognises debt securities issued and subordinated liabilities on the date that they originated. All other financial liabilities (including liabilities designated as fair value through profit or loss) are recognised initially on the trade date at which the Group becomes a party to the contractual provisions of the instrument. The Group derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Non-derivative financial liabilities comprise loans and borrowings and trade and other payables. Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest method.

### **40.11 Foreign currency**

#### *(a) Foreign currency transactions*

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the year, adjusted for effective interest and payments during the year, and the amortised cost in foreign currency translated at the exchange rate at the end of the reporting year.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Foreign currency differences arising on retranslation are recognised in profit or loss.

#### *(b) Foreign operations*

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to AED at the exchange rates at the reporting date. The income and expenses of foreign operations are translated to AED at the average exchange rates for current year.

Foreign exchange differences arising on translation are recognised in other comprehensive income and presented in the foreign currency translation reserve in equity. When a foreign operation is disposed of such that control, significant influence or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of gain or loss on disposal.

When the Group disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to the non-controlling interests. When the Group disposes of only part of its interest in joint venture or an associate that includes a foreign operation while retaining significant influence, the relevant proportion of the cumulative amount is reclassified to profit or loss.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 40 Material accounting policies (continued)

### 40.12 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount can be made. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and risks specific to the obligation. Increases in provisions due to the passage of time are recognised in the consolidated statement of comprehensive income within 'finance costs'.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole.

### 40.13 Impairment

#### (a) *Non-derivative financial assets*

A financial asset not carried at fair value is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Group on terms that the Group would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, economic conditions that correlated with defaults, adverse changes in the payment status of borrower or issuer, the disappearance of an active market for a security, or observable data indicating that there is a measurable decrease in expected cash flows for a group of financial assets.

The Group considers evidence of impairment for these assets at both an individual asset and a collective level. All individually significant assets are individually assessed for specific impairment. Those found individually not to be impaired are then collectively assessed for any impairment that has been incurred but not yet individually identified. Assets that are not individually significant are collectively assessed for impairment by grouping together receivables with similar risk characteristics.

In assessing collective impairment, the Group uses historical information on the timing of recoveries and the amount of loss incurred and makes an adjustment if current economic and credit conditions are such that the actual losses are likely to be greater or lesser than suggested by historical trends.

An impairment loss is calculated as the difference between an asset's carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account. When the Group considers that there are no realistic prospects of recovery of the asset, the related amount are written off. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## **40 Material accounting policies** (continued)

### **40.13 Impairment** (continued)

#### *(b) Equity-accounted investees*

An impairment loss in respect of an equity accounted investee is measured by comparing the recoverable amount of the investment with its carrying amount. An impairment loss is recognised in profit or loss, and is reversed if there has been a favorable change in the estimates used to determine the recoverable amount.

#### *(c) Non-financial assets*

At each reporting date, the Group reviews the carrying amounts of the Group's non-financial assets (other than investment properties and inventories) to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated.

For goodwill and intangible assets that have indefinite useful lives or that are not available for use are tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGU's. Goodwill arising from business combination is allocated to CGU or group of CGU's that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or its cash generating unit (CGU) exceeds in estimated receivable amount

Impairment losses are recognised in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro-rata basis.

An impairment loss in respect of goodwill is not reversed. Impairment losses, other than in respect of goodwill is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

### **40.14 Provision for employee's end of service benefits**

A provision is made, using actuarial techniques, for the end service benefits due to employees in accordance with the UAE Labour Law for their years of service up to balance sheet date.

Furthermore, in accordance with Federal Labour Law No.7 of 1999 for pension and social security, employers are required to contribute 12.5% of the 'contribution calculated on salary' of those employees who are UAE nationals. These employees are also required to contribute 5% of the 'contribution calculated on salary' to the scheme. The Group's contribution is recognised as an expense in profit or loss as incurred. The employees and employers' contribution, to the extent remaining unpaid at the reporting date, has been shown under other liabilities.

# Dubai Investments PJSC and its subsidiaries

## Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

### 40 Material accounting policies (continued)

#### 40.15 Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- the contract involved the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the Group has the right to direct the use of the asset. The Group has the right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where all the decisions about how and for what purpose the asset is used are predetermined, the Group has the right to direct the use of the asset if either:
  - the Group has the right to operate the asset; or
  - the Group designed the asset in a way that predetermines how and for what purpose it will be used.

At the inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

#### *As a lessee*

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-to-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discounted rate.

Lease payments included in the measurement of the lease liability comprise:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date; amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## 40 Material accounting policies (continued)

### 40.15 Leases (continued)

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee or if the Group changes its assessment of whether it will exercise a purchase, extension or terminate option.

Lease liability is subsequently increased by the finance costs on the lease liability and decreased by lease payments made.

Each lease payment is allocated between the liability and finance cost. The finance costs is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group presents right-to-use assets that do not meet the definition of investment property in 'right-of-use'.

The Group has applied judgement to determine the lease term for some lease contracts in which it is a lessee that include renewal and termination options. The assessment of whether the Group is reasonably certain to exercise such options impacts lease term, which significantly affects the amount of lease liabilities and right-of-use assets recognised.

The right-of-use assets within buildings includes offices, labour camps and warehouses and plant and equipment consists of a lease of a sewage treatment plant.

#### *Short-term leases and leases of low-value assets*

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases of vehicle that have a lease term of 12 months or less and leases of low-value assets, including office equipment. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

#### *Variable lease payments*

The Group leases land from the Government of Dubai for a period of 99 years. The Group was exempted to pay the lease rentals for the first ten years and thereafter, starting 1 February 2009, rental payments that are based on variable payment terms being 20% of the share of realised profit is payable to the Government of Dubai. As the lease payments are variable, no lease liability has been recognised for this lease. The Group has recognised the right-of-use asset as an investment property and is being carried at fair value in line with its accounting policy.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## **40 Material accounting policies** (continued)

### **40.15 Leases** (continued)

*As a lessor*

When the Group acts as a lessor, it determines at the lease commencement whether each lease is a finance lease or an operating lease. To classify each lease the Group makes an overall assessment of whether the lease transfer to the lessee substantially all of the risk and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for major part of the economic life of the asset.

When assets are leased out under an operating lease, the asset is included in the balance sheet based on the nature of the asset. Lease income is recognised over the term of the lease on a straight-line basis.

The Group recognises lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'Revenue'.

### **40.16 Earnings per share**

The Group presents basic and diluted earnings per share (EPS) data for its shares. Basic EPS is calculated by dividing the profit attributable to shareholders of the Company by the weighted average number of shares outstanding during the year. Weighted average number of shares outstanding is retrospectively adjusted to include the effect of any increase in the number of shares without a corresponding change in resources.

### **40.17 Current and deferred income tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and at the time of the transaction affect neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

# Dubai Investments PJSC and its subsidiaries

Notes to the consolidated financial statements for the year ended 31 December 2025 (continued)

## **40 Material accounting policies** (continued)

### **40.17 Current and deferred income tax** (continued)

Deferred tax assets are recognised for unused tax losses and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for individual subsidiaries in the Group. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax assets and liabilities, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

In determining the amount of current and deferred tax the Group takes into account the impact of uncertain tax positions and whether additional taxes and penalties may be due. The Group believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Group to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact the tax expense in the period that such a determination is made.

### **40.18 Segment reporting**

Segment results that are reported to the Board of Directors (Chief Operating Decision Maker) include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

**Annual Corporate  
Governance Report  
2025**

## 1 Corporate Governance Practices

Dubai Investments PJSC (“DI” or “the Company”) has completed three decades as a diversified investment group, playing a sustained role in the economic and social development of Dubai and UAE. Since its incorporation in 1995, the Group has expanded across real estate, investments, building materials, education, healthcare, and services, guided by disciplined investment practices, prudent risk management, and a strong commitment to corporate governance. As Dubai Investments marks 30 years of growth, its governance framework continues to evolve in line with leading practices and regulatory requirements, reinforcing resilience, accountability, transparency, and long-term value creation across its diversified portfolio.

### **Governance Framework and Regulatory Compliance**

The Company has adopted a comprehensive corporate governance framework and Board Charter that comply with the provisions of:

- UAE Federal Decree Law No. (32) of 2021 of the Commercial Companies and its amendments.
- Capital Market Authority (“CMA” or “Authority”) Chairman Resolution No (3/Chairman) of 2020 concerning Joint Stock Companies Governance Guide and its amendments.
- The Company’s Articles of Association.

The Board of Directors is responsible for ensuring full compliance with these frameworks and for establishing policies, procedures, and practices that safeguard the interests of shareholders and stakeholders.

### **Board of Directors**

The Company is governed by a nine-member Board of Directors comprising individuals with diverse expertise across manufacturing, finance, private equity, investment, and real estate.

The Board is entrusted with overall responsibility for:

- Setting the Company’s strategic direction and objectives
- Establishing governance frameworks, policies, and internal controls
- Overseeing management performance and risk management
- Ensuring compliance with applicable laws and governance standards

The Board operates in accordance with a formal Charter and retains the authority to delegate specific responsibilities to Board Committees and Executive Management.

Board members confirm their independence on an annual basis, and the Company ensures compliance with regulatory requirements regarding the appropriate composition of independent and non-executive directors.

### **Board Committees**

To support the effective discharge of its responsibilities, the Board has established the following committees, each operating under approved terms of reference:

- Audit Committee
- Nomination and Remuneration Committee
- Risk Committee
- Investment Committee

These committees assist the Board in maintaining financial integrity, strengthening internal controls, overseeing risk management, supporting strategic decision-making, and ensuring alignment with governance and regulatory requirements.

### **Internal Control and Risk Management**

The Board has established a robust internal control system designed to evaluate and enhance:

- Operational effectiveness
- Financial reporting reliability
- Compliance with applicable laws, regulations, and internal policies

The Audit Committee supports the Board in overseeing the effectiveness of internal controls and financial reporting, while the Risk Committee ensures the proper implementation of the Enterprise Risk Management (ERM) framework.

The ERM framework enables the systematic identification, assessment, and mitigation of financial, operational, regulatory, and strategic risks. Regular reviews and reporting enhance the Group’s resilience and responsiveness to evolving business conditions.

**Corporate Governance Practices and Improvements**

During 2025, the Company continued to strengthen its governance practices through:

- Ongoing review and enhancement of governance policies and frameworks
- Regular Board and Committee meetings with documented deliberations and resolutions
- Annual confirmation of Board members’ independence.
- Timely disclosure of quarterly and annual financial statements in compliance with regulatory requirements
- Continuous monitoring of related party transactions and conflict of interest declarations
- Strengthening of compliance and corporate governance functions across the Group.

**Sustainability and Stakeholder Engagement**

The Group’s governance framework is anchored in seven sustainability pillars that guide responsible decision-making and long-term value creation.

Stakeholder engagement remains a key component of governance, with structured interactions involving shareholders, regulators, employees, customers, suppliers, and communities. Insights from these engagements support towards deriving strategy, risk management, and sustainability priorities.

During 2025, the Company conducted a review of its material topics to ensure alignment with business strategy, stakeholder expectations, and the evolving risk landscape. Key priorities include:

- Corporate governance and business ethics
- Internal Control
- Risk management
- Health and safety
- Energy and emissions
- Environmental Management
- Diversity and inclusion
- Responsible supply chains
- Cybersecurity and Data privacy

Social initiatives continued to focus on employee wellbeing, workplace safety, skills development, and community engagement through partnerships and volunteering programs.

Ethical business practices are deeply embedded in the Company operations, as reflected in its comprehensive Code of Conduct. This code establishes clear expectations for employees, addressing key areas such as conflicts of interest, confidentiality, and responsible practices while ensuring compliance with local laws and regulations.

Through open communication channels, proactive feedback integration, and adherence to stringent ethical standards, the Company cultivates a culture of trust and responsibility across all levels.

## 2 Ownership and transactions by Board members

The ownership and transactions by Board members, their spouses and children in the Company's securities during 2025.

### 3 Board of Directors

#### (a) Board of Directors Composition

The Board comprises of 5 (five) independent and 4 (four) non independent members who are all non-executive Directors except the Vice-Chairman who serves as the Chief Executive Officer of the Company. The Board of Directors were elected by the shareholders for a period of three years during the Annual General Assembly Meeting held on 26<sup>th</sup> April 2023. All the Directors are UAE nationals with requisite skills and expertise.

#### Biography of the Board Members

The Board Members' experience, skills and other noteworthy offices held in publicly listed or Government entities and other important supervisory positions, are detailed below:

Committees	
AC	Audit Committee
NRC	Nomination and Rewards Committee
RC	Risk Committee
IC	Investment Committee
	Committee Chairman / Chairperson

**Mr. Abdulrahman Ghanem A. Al Mutaiwee**  
*Chairman of the Board*  
*Appointment date: 10<sup>th</sup> April 2017*

*NON-INDEPENDENT & NON-EXECUTIVE*

Mr. Abdulrahman Ghanem A. Al Mutaiwee has been a high-ranking diplomat and has held senior management positions in various ministries and government establishments.

He worked in the banking field for 4 years and then as Director General of the Dubai Chamber of Commerce and Industry (DCCI) for a period of 23 years. Thereafter he served as the Ambassador of the UAE to the Court of St. James and Iceland for 7 years. He also served as Director at the Ministry of Foreign Affairs and International Cooperation in Dubai for three and a half years till the end of 2019. He holds a Bachelor's Degree in Economics and Political Science from Cairo University and Diploma in Banking and Financial Studies from New York.

He currently holds the following positions:

- Vice Chairman International Charity Organization.
- Vice Chairman of the UAE International Investors Council (UAEIIC).

**Mr. Khalid Jassim Mohd Bin Kalban**  
*Vice Chairman and Chief Executive Officer*  
*Appointment date: 18<sup>th</sup> May 2002*

*EXECUTIVE & NON-INDEPENDENT*

Mr. Khalid Bin Kalban has extensive experience in manufacturing and industrial sectors as well as financial, investment and real estate sectors. 4. During 2025, no additional allowances, salaries, or fees, other than what is stated in this Report, were paid to any member of the Board of Directors, except Mr. Khalid Jassim Mohd Bin Kalban who is Vice Chairman and Chief Executive Officer of the Company. Please refer to item (8.2) below.

### (e) Board meetings

The Board of Directors convened 5 (five) times during 2025, as follows:

Sr. No	Date of Board meeting	Number of attendees	Proxy	Names of absent Directors
1	13 <sup>th</sup> March 2025	9	None	None
2	8 <sup>th</sup> May 2025	9	None	None
3	4 <sup>th</sup> August 2025	9	None	None
4	13 <sup>th</sup> November 2025	8	None	Mr. Ahmed Salem Abdulla Salem Alhosani*
5	11 <sup>th</sup> December 2025	9	None	None

**Note:**

\* Did not attend due to National Service.

**(f) Number of Board of Directors Resolution by circulation issued during the financial year 2025**

The Board of Directors unanimously approved 1 (one) Resolution by circulation during 2025 on 26<sup>th</sup> June 2025.

**4 Board Committees**

**4.1 Audit Committee (AC)**

The Roles and Responsibilities of the Audit Committee inter alia include:

- Review the annual and quarterly Financial Statements;
- Review the effectiveness of the Internal Control Over Financial Reporting;
- Review of Related Party transactions, managing conflict of interests and submitting recommendations concerning such transactions to the Board;
- Review the adequacy of insurance coverage and legal dispute status;
- Review Internal Control reports and following up the implementation of corrective measures and
- Review and assessment of Internal Control and Risk management system.

To provide independence from management, all members of the Audit Committee are Non-Executive and the Chairman of the Board is not a member of the Audit Committee. Mr. Khaled Mohamed Ali Al Kamda was nominated as the financial expert on the Audit Committee and serves as the Chairman of the Audit Committee. Notably, the Audit Committee has unrestricted access to the records of the Company and can seek expert advice if required.

The Audit Committee convened 5 (five) times during 2025 on 12<sup>th</sup> March, 7<sup>th</sup> May, 4<sup>th</sup> August, 13<sup>th</sup> November and 11<sup>th</sup> December 2025 and the following table summarizes the members and their attendance:

Sr. No.	Name	Title	Meetings attended
1	Mr. Khaled Mohamed Ali Al Kamda	Chairman	5
2	Mr. Ali Fardan Ali Al Fardan	Member	5
3	Mr. Mohamed Saif Darwish Ahmed Al Ketbi	Member	5
4	Mr. Faisal Abdulaziz Alshaikhmohamed Alkhazraji	Member	5

Mr. Khaled Mohamed Ali Al Kamda, the Audit Committee Chairman, declares his responsibility for the Committee's system in the Company and that he has reviewed the mechanism of its work and that he has ensured its effectiveness.

**Audit Committee's Annual Report:**

**1. Significant matters considered by the Committee in relation to the financial statements and how these matters were addressed.**

The AC conducted a comprehensive review of annual consolidated financial statements (including the quarterly financial statements) of DI and its subsidiaries (collectively referred to as "the Group"), to ensure the correctness thereof and compliance with the International Financial Reporting Standards. During the review, the AC considered key financial matters including valuation of significant assets and revenue recognition. The AC also

noted sustained growth in the financial performance of the Group, which was largely attributed to the strong performance of real estate and investment segments.

In light of these reviews and noting the unmodified opinion from the external auditors, the AC recommends the consolidated annual financial statements of 2025 for the Board of Director's approval.

**2. A statement explaining how the independence and effectiveness of the external audit process was assessed and the process followed in appointing or reappointing the external auditor, and information on the length of the current audit firm's tenure.**

The AC reviews the performance, independence and quality of the external auditor annually, including regulatory conditions and thresholds on independence, rotation and qualification of the audit firm and its staff. The AC further discusses and confirms with the external auditor their independence from the Group. This includes receiving all written disclosures and correspondence required by the International Ethics Standards Board for Accountants' Code (IESBA Code), together with other UAE ethical requirements relevant to their audit of consolidated financial statements (including the quarterly financial statements) of the Group.

The AC reviews the audit scope and approach for the year proposed by the external auditor. The AC also communicates with the external audit team at least once a year, without the presence of any of the senior management, discussing periodic and annual reporting, audit findings, changes in accounting and reporting standards, and other necessary business.

Accordingly, the AC concluded that the external auditor fulfilled their responsibilities under these ethical requirements.

**3. A statement explaining the Committee's recommendation regarding the appointment, reappointment or removal of the external auditor, and the reasons why the Board of Directors did not accept that recommendation.**

KPMG Lower Gulf Limited ("KPMG") were appointed as the auditors of DI for the year 2024. Following its performance evaluation for the 2024 financial year, the board recommended the re-appointment of KPMG as the Group's External Auditor for the year ended 31<sup>st</sup> December 2025 which was approved at Dubai Investment's Annual General Meeting on 16<sup>th</sup> April 2025.

**4. A statement explaining how the independence of the external auditor was ensured when providing services other than the Company's audit.**

Prior approval of the AC is required to appoint external auditor for providing any non-audit services to the Company and its subsidiaries. The AC reviews the scope of work for any non-audit services to be provided by the external auditor and assesses independence of the external auditor before approving such services.

**5. Actions taken or will be taken by the Committee to address any shortcomings or weaknesses in the event of any failures in internal control or risk management.**

The Audit Committee and the Risk Committee are collectively responsible for addressing deficiencies and weaknesses in the internal control environment and risk management.

The Audit Committee convened 5 (five) times during 2025 to effectively discharge its responsibilities in relation to internal audit, internal controls and compliance related matters and to address any internal control deficiencies and/or compliance breaches.

The Risk Committee convened 4 (four) times during 2025 to effectively discharge its responsibilities in terms of risk management oversight and to address any shortcomings or weaknesses in the event of any failures in risk management or addressing material deficiencies.

**6. Evidence confirming that the Committee reviews all reports of medium and high risk issued by the internal audit to determine whether they arise from significant failures or weaknesses in internal control.**

The Audit Committee is updated at each meeting on Internal Audit activities (planned versus actuals) including deviations, if any, from the approved Internal Audit Plan, with justifications.

The AC reviews all high and medium-risk observations of DI and its significant subsidiaries presented by the Internal Audit department.

The AC also reviews high-risk observations of other subsidiaries presented by the Internal Audit department.

High and medium-risk observations of other subsidiaries are presented by the Internal Audit department to the relevant subsidiary Audit Committees, and the DI AC reviews the minutes of these meetings.

The AC, at each meeting, also reviews the status of agreed Management Action Plans and is updated on implementation of the action plans.

#### **7. Comprehensive information on the corrective action plan in the event of material deficiencies in the areas of risk management and internal control systems.**

At each meeting, the Audit Committee is updated on the status of remedial measures undertaken to address control deficiencies and/or compliance breaches. Further, at each meeting, the Risk Committee is updated on the status of remedial measures undertaken in relation to risk events and breach of established risk limits.

Implementation and follow-up by the Audit Committee and/or Risk Committee aids in ensuring agreed remedial measures are implemented thereby strengthening the Groups control environment.

#### **8. Evidence confirming that the committee has reviewed all transactions made with related parties and the resulting observations or results and the extent of compliance with the applicable laws in this regard.**

The Company has established a policy on conflicts of interest and related-party transactions, which has been duly approved by the Board of Directors. Under this policy, related parties are required to disclose any potential conflicts of interest on a regular basis. These disclosures are maintained in a dedicated electronic register, ensuring that all relevant information is accurately recorded, tracked, and monitored in an organized manner.

All transactions with related parties are submitted to the Audit Committee for review during its periodic meetings. The Committee assesses these transactions to ensure full compliance with applicable laws and regulations. Its observations and recommendations are documented in the meeting minutes, and based on these recommendations, the transactions are presented to the Board of Directors for consideration and appropriate decision-making.

### **4.2 Nomination & Rewards Committee (NRC)**

The Roles and Responsibilities of the Nomination & Rewards committee inter alia include:

- Verify the independence of the Board members by means of a Declaration of Independence form which was completed and signed by each independent member;
- Review and approve the Human Resources policies;
- Perform Annual Board members' Evaluation;
- Promote gender diversity at Board, Executive management & staff level and annually review the Emiratization activities being undertaken by the Company;
- Review annually the ongoing suitability of the Company's policy for remuneration & benefits for the Company's Board of Directors and Executive Management.

To provide independence from management, all members of the Nomination and Rewards Committee are Non-Executive and the Chairman of the Board is not a member of the Committee. Mrs. Hind Abdulrahman Qassim Alali serves as the Chairperson of the Nomination and Rewards Committee.

The Nomination and Rewards Committee convened 3 (three) times during 2025 on 13<sup>th</sup> March, 4<sup>th</sup> August and 11<sup>th</sup> December 2025 and the following table summarizes the members and their attendance:

Sr. No.	Name	Title	Meetings attended
1	Mrs. Hind Abdulrahman Qassim Alali	Chairperson	3
2	Mr. Ali Fardan Ali Al Fardan	Member	3
3	Mr. Hussain Nasser Ahmed Lootah	Member	3

Mrs. Hind Abdulrahman Qassim Alali, the Nomination and Rewards Committee Chairperson, declares her responsibility for the Committee's system in the Company and that she has reviewed the mechanism of its work and that she has ensured its effectiveness.

### **4.3 Risk Committee (RC)**

The Risk Committee's objective and purpose is to assist the Board in fulfilling its oversight responsibilities in relation to Enterprise Risk Management (ERM). The Risk Committee performs the following functions as detailed in its Charter:

- Oversees the ERM framework in place, which provides structure as to how material risk exposures are measured, monitored, managed, & mitigated; and includes appropriate policies, procedures, and controls.
- Reviews and approves the Risk Tolerance/Risk Limits in line with Board approved Risk Appetite.
- Prepares detailed reports on the level of exposure to risks & make recommendations to the Board, ensure availability of adequate resources & systems for risk management and report on the Company risk profile and inform the Board of any significant changes in the volume of the risk.
- The RC also reviews the Group's insurance coverage.

The Committee recommended the Risk Appetite Statement to the Board and reviewed the periodic, consolidated Risk Reports, which were presented to the Committee by the Risk Department.

The RC convened 4 (four) times during 2025 on 12<sup>th</sup> March, 7<sup>th</sup> May, 4<sup>th</sup> August and 5<sup>th</sup> December 2025 and the following table summarizes the members and their attendance:

Sr. No.	Name	Title	Meetings attended
1	Mr. Hussain Nasser Ahmed Lootah	Chairman	4
2	Mr. Mohammed Saif Darwish Ahmed Al Ketbi	Member	4
3	Mr. Ahmed Salem Abdulla Salem Alhosani	Member	3*

**Note:**

\* Absent.

Mr. Hussain Nasser Ahmed Lootah as Chairman of the Risk Committee declares his responsibility for the Committee's system in the Company and that he has reviewed the mechanism of its work and that he has ensured its effectiveness.

#### 4.4 Investment Committee (IC)

The Roles and Responsibilities of the Investment Committee (IC) inter alia include:

- Appraise Investments/Divestments Proposals.
- Review /approve investments/divestments until transaction closure.
- Evaluate the Investment/Divestment Proposals to ensure alignment with overall group corporate strategy, risk limitations and return requirements, while taking into consideration impact on DI Group's capital structure and debt covenants.
- Responsible for Treasury investment activities including Investments in Listed Equities, Quoted Fixed Income instruments, Alternative Investments in assets other than stocks, bonds and cash, and Unquoted Equity Securities.
- Approve Non-binding Offers to be executed.
- For investments which have been approved by the Board, IC provides approval of Binding Offer within the investment terms/parameters approved by the Board in the Investment Appraisal stage.

The IC convened 3 (three) times during 2025 on 25<sup>th</sup> February, 30<sup>th</sup> July and 18<sup>th</sup> December 2025 and the following table summarizes the members and their attendance:

Sr. No.	Name	Title	Meetings attended
1	Mr. Khalid Jassim Mohd Bin Kalban	Chairman	3
2	Mr. Khaled Mohammed Ali Al Kamda	Member	3
3	Mrs. Hind Abdulrahman Qassim Alali	Member	3
4	Mr. Mushtaq Masood Syed Mohideena	Member	3

Mr. Khalid Jassim Mohd Bin Kalban as Chairman of the Investment Committee declares his responsibility for the Committee's system in the Company and that he has reviewed the mechanism of its work and that he has ensured its effectiveness.

#### 5 Other Committees

## 5.1 Committee for Management and Supervision of Insiders' Trading (ITSC)

The Insider Trading Supervision Committee (ITSC) performs the following functions, as detailed in its Charter:

- Manage, follow-up and supervise insiders' trading and their shareholding in DI shares;
- Maintain a special and comprehensive register for all insiders, including persons who could be considered as insiders on a temporary basis and who are entitled to or have access to inside information of the Company prior to publication. The record also includes details of initial declaration and subsequent updates on the trades by insiders and their shareholding;
- Review the Securities Dealing Policy of the Company, including but not limited to Trading on Material Price Sensitive Information and Periodic Declarations by Insiders; and
- Submit statements and reports to the Market & the Authority, when required.

The ITSC convened (5) five times during 2025 on 4<sup>th</sup> March, 19<sup>th</sup> March, 1<sup>st</sup> May, 31<sup>st</sup> July, and 3<sup>rd</sup> November 2025 and the following table summarizes the members and their attendance:

Sr. No.	Name	Title	Meetings attended
1	Mr. Abdulaziz Bin Yagub Bin Yousef AlSerkal	Chairman	5
2	Mr. Mushtaq Masood Syed Mohideena	Member	5
3	Dr. Fady Kayyal	Member	5

Mr. Abdulaziz Bin Yagub Bin Yousef AlSerkal, as Chairman of the ITSC, declares his responsibility for the Committee's system in the Company and that he has reviewed the mechanism of its work and that he has ensured its effectiveness.

## 6 Board Duties and Delegation to Executive Management

The powers reserved for the Board of Directors have been explicitly stated in the Board Charter in compliance with legislations and regulations inter alia, UAE Federal Decree Law No. (32) of 2021 of the Commercial Companies and its amendments, Chairman Resolution No (3/Chairman) of 2020 concerning Joint Stock Companies Governance Guide and the Articles of Association of the Company. Detailed job descriptions are provided for each member of the Executive Management. The Board oversees the Company strategically, reviews the strategies and implementation with the executive management, while the Executive management is authorized to run the day-to-day activities of the Company as per the Delegation of Authority approved by the Board of Directors.

## 7 Transactions with Related Parties

There were no related party transactions during the financial year ended 31 December 2025.

## 8 Board of Directors Evaluation

### Evaluation of the Board of Directors, its Committees and Executive Management

#### 8.1 Evaluation of the Board of Directors and its Committees:

The Company reinforced its commitment to the highest standards of governance by conducting annual internal evaluation of the Board of Directors and its Committees.

In May 2025, evaluations for the year 2024 were conducted in full compliance with the applicable regulatory requirements. Assessment was carried out to evaluate the Board's adherence, including aspects of governance, sustainability, and corporate social responsibility.

Thereafter in March 2026, evaluations were conducted for the year 2025.

These evaluations were carried out internally through electronic questionnaires and covered various scenarios. The evaluation findings demonstrate considerable satisfaction among Board and Committee members with their effectiveness and contributions. The following principal strengths were identified:

- Board effectiveness is demonstrated through strong leadership, clear guidance provided by the Chairman, constructive dialogue and active engagement from all members, and robust oversight of management and organizational performance.
- The Board operates with clearly defined roles and responsibilities.
- Materials provided to the Board are comprehensive, relevant, and distributed in a timely manner. These are well-structured and enable informed and effective decision-making.
- The Board is collaborative, professional, diverse in expertise, aligned with company goals, and supported by effective committees and strongly committed to governance standards.

The overall evaluations were highly positive, and members collectively identified opportunities for further strengthening Board effectiveness with a need for structured strategy workshops, enhanced industry insights and futuristic programs such as Artificial Intelligence and digital transformation.

## 8.2 Evaluation of the Executive Management

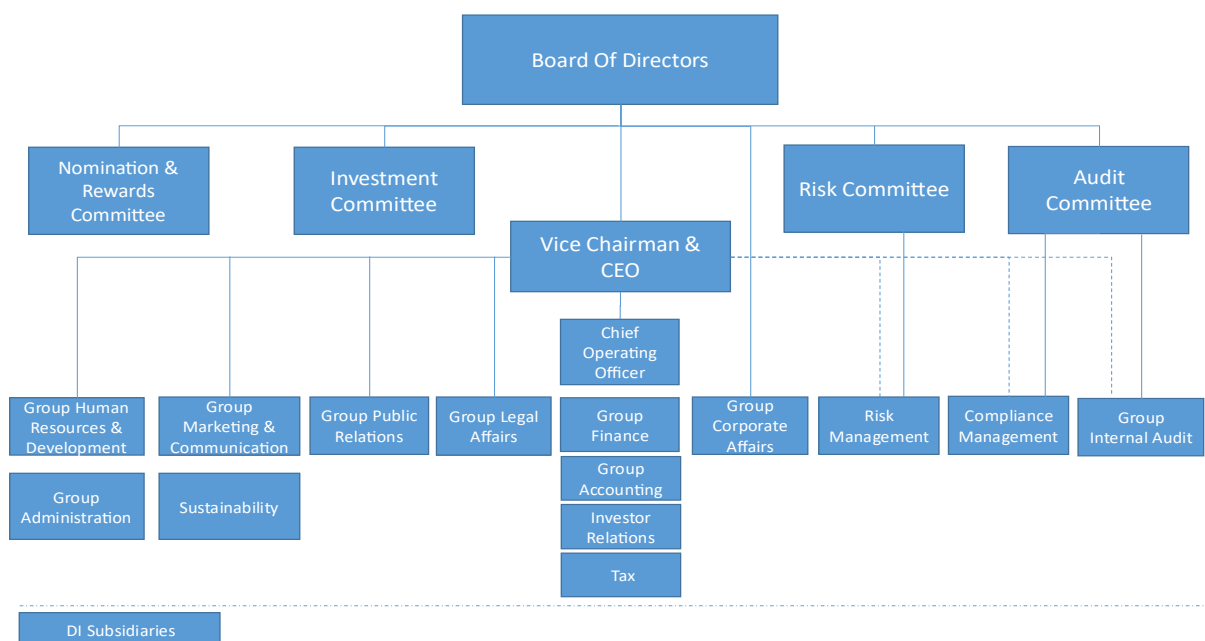

The evaluation of the executive management is a process designed to assess the performance and effectiveness of the executive team within an organization. This evaluation typically involves a comprehensive review of various aspects of their roles, including their leadership, decision-making, strategic planning, and overall contribution to the Company's goals.

The purpose of the executive management evaluation is multifaceted:

1. **Performance Assessment:** The evaluation provides an objective assessment of executive performance against approved strategic objectives, key performance indicators (KPIs), and agreed priorities. It ensures that executive management is aligned with the Company's vision and strategy and is delivering measurable results that support long-term success.
2. **Leadership Development and Continuous Improvement:** By identifying individual and collective strengths, as well as areas for improvement, the evaluation supports continuous leadership development. The outcomes support targeted development plans, executive coaching, and capability-building initiatives aimed at enhancing leadership effectiveness and organizational performance.
3. **Accountability and Governance:** The evaluation reinforces accountability by holding executive management responsible for their decisions, behaviours, and results. It promotes transparency, ethical leadership, and responsible management practices, strengthening trust among stakeholders and supporting effective corporate governance.
4. **Risk Management, Business Continuity, and Organizational Resilience:** The evaluation assesses the effectiveness of executive oversight in identifying, managing, and mitigating strategic, operational, financial risks. It also considers leadership responsibility for business continuity planning, crisis preparedness, and organizational resilience, ensuring the continuity of critical operations and the Company's ability to respond effectively to disruptions.
5. **Environmental, Social, and Governance (ESG) Performance:** Executive management performance is evaluated in relation to ESG principles, including environmental sustainability, social responsibility, workforce well-being, diversity and inclusion, stakeholder engagement, and strong governance practices. This ensures that executive decisions support sustainable value creation and responsible business conduct.
6. **Succession Planning and Leadership Sustainability:** The evaluation process supports succession planning by identifying leadership potential, readiness levels, and capability gaps within the Company. This enables proactive talent planning, leadership continuity, and reduced dependency on individual roles, contributing to long-term organizational stability.
7. **Strategic Alignment and Value Creation:** The evaluation ensures that executive priorities, resource allocation, and decision-making are consistently aligned with the Company's strategic objectives. This alignment is critical for driving sustainable growth, managing change effectively, and delivering long-term value for shareholders and stakeholders.

## 9 Organization Structure of the Company

### 9.1 The organizational structure of the Company as of 31<sup>st</sup> December 2025

## 9.2 Executive Management

Additionally, KPMG have been appointed as External Auditors by the Company’s subsidiaries for which fees have been agreed separately by the relevant subsidiaries, amounting to AED 3,133,360/- (excluding VAT).

### 10.3 External Auditors’ opinion

The External Auditor has not qualified its opinion on the Company’s 2025 interim or annual consolidated financial statements.

## 11 Internal Controls System

- a) The Board of Directors acknowledges its overall responsibility for the effectiveness of the internal control system. The Board of Directors receives quarterly reports from the Audit Committee on updates relating to the Group Internal Audit and Compliance functions, and reports from the Risk Committee on updates related to Risk Management. In relation to the internal control system, other areas covered include ICOFR, Insurance, and Legal. Based on these reports and other feedback, the Audit Committee, the Risk Committee and Board directs the Executive Management to take appropriate action to ensure effective and efficient operations, accurate financial reporting and compliance with applicable laws and regulations.
- b) The Chief Internal Audit Officer is Mr. Saderuddin Panakkat, a Chartered Accountant and an MBA holder, appointed on 3<sup>rd</sup> October 2005. He reports to the Audit Committee.

### (i) Significant Events and important disclosures that took place in the Company during 2025

#### Growth and Expansion

- Dubai Investments launched Asayel Avenue, the fourth residential cluster within the Mirdif Hills development, representing a total investment of AED 400 million and comprising 191 contemporary one, two and three bedroom residential apartments.
- Dubai Investments announced Al Vista, an AED 1.3 billion mixed-use development in Meydan Horizon comprising a 39-storey residential tower with 312 apartments and a 19-storey commercial tower offering 120,000 sq. ft. of office space.
- Dubai Investments commenced construction on a second float glass manufacturing line at Emirates Float Glass, with an investment of over AED 600 million and doubling capacity from 600 to 1,200 tons per day.
- Dubai Investments through Globalpharma, signed an MoU with Angola's Ministry of Health to advance healthcare collaboration and market development.
- Emirates Glass partnered with ClearVue to manufacture advanced solar glazing solutions for the UAE and GCC markets, expanding the Group's footprint in sustainable and smart-building materials.
- Emirates Glass launched new temperable double-silver glass products — SL Grey 50 and SL Serene Blue 40, offering enhanced solar performance and energy-efficient façade solutions for regional and global markets.
- Emirates Extrusion Factory expanded its industrial portfolio by partnering with UCS to exclusively manufacture the UAE's first zero-waste Green Curtain Wall System.
- DIP Angola signed a 10 million sq.ft. land agreement with Reportage Group for large-scale residential and commercial development.
- DIP Angola signed an agreement with Trice Chemicals to establish a state-of-the-art manufacturing facility on a 26,000 sqm plot.
- Dubai Investments strengthened its African footprint by signing a strategic agreement with Angola's Sovereign Wealth Fund (FSDEA) to develop major real estate projects in Angola, supporting the Group's international expansion strategy.
- Global Fertility Network expanded its regional presence with the acquisition of HealthPlus Fertility in Jeddah, enhancing its footprint in Saudi Arabia's healthcare market.
- Al Mal Capital REIT (AMCREIT) completed its first healthcare investment with the acquisition of the NMC Royal Hospital real estate asset in Dubai Investments Park — a 492,332 sq. ft. facility with 120 inpatient beds — raising the REIT's portfolio value to approximately AED 1.4 billion.
- Emicool expanded its UAE presence through a concession agreement to operate Al Reef Cooling Company in Abu Dhabi, further strengthening its district cooling network.

## Recognition and Awards

- Khalid Bin Kalban, Vice Chairman and CEO of Dubai Investments, was recognised by Economy Middle East among the executives shaping the UAE’s business landscape in 2025, acknowledging his strategic influence and leadership.
- Khalid Bin Kalban, Vice Chairman & CEO, was recognized among Forbes Middle East’s 2025 Sustainability Leaders.
- Danah Bay by Dubai Investments Real Estate secured the “Best Mixed-Use Development” award at the Arabian Property Awards 2025–2026, reflecting outstanding design, sustainability and development excellence.
- Emirates Business Systems earned CE Mark certification, meeting the highest international standards.
- Globalpharma ranked first in the Quality Award category at Make it in the Emirates (MIITE) 2025, recognising its excellence in pharmaceutical manufacturing, continuous improvement, and industrial leaderships.
- Emirates Float Glass achieved a 67% In-Country Value (ICV) score, becoming the UAE’s only ICV-certified float glass manufacturer — a major recognition of its contribution to national industrial capability and localisation.
- Emirates Float Glass earned the GORD International Green Mark Certification, reinforcing its leadership in sustainable, low-emission glass manufacturing aligned with global green building standards.
- Saudi American Glass Company was awarded “Best Glass Company 2025” at the 4th Annual Saudi Building & Infrastructure Awards, highlighting its industry-leading product quality and market impact.
- Emicool won the Middle East Technology Award for ESG Utilities for its Emiview platform, recognising its innovation in digital monitoring, energy efficiency and sustainability performance.
- Emicool was named “District Cooling Utility Provider of the Year” at the Climate Control Awards 2025, reflecting its excellence in innovation, service quality, and regional cooling leadership.

**(j) A statement of the transactions carried out by the Company with Related Parties during the year 2025 that are equal to 5% or more of the Company capital.**

There were no transactions carried out by the Company with Related Parties during the year 2025 that are equal to 5% or more of the Company Capital.

**(k) Emiratization**

The Emiratization percentage in the Company in the years ended **2023**, **2024** and **2025** was:

2023	<b>25%</b>
2024	<b>27%</b>
2025	<b>29 %</b>

**(I) Innovative Products and Initiatives implemented by the Company or which were under development during 2025.**

- **Emirates Extrusion Factory** advanced sustainable construction through its exclusive partnership with UCS to manufacture the UAE's first Zero-Waste Green Curtain Wall System, marking a breakthrough in circular manufacturing and next-generation façade innovation.
- **Emirates Building System EBS** enhanced advanced steel fabrication with the V807 robotic cutting system, integrating automation, precision and efficiency into large-scale structural steel manufacturing.
- **Globalpharma** digitised quality operations through the introduction of E-Logbook technology, reducing manual processes and strengthening regulatory compliance.
- **Globalpharma** expanded its manufacturing excellence with major upgrades, including a new sachet filling line, advanced automated cartoning for liquid products, tamper-evident label printing technology, an upgraded penicillin emission-control system and improved moisture-control enhancements at its facility.
- **Globalpharma** enhanced analytical precision with High-Performance Liquid Chromatography (HPLC) systems, improving accuracy in pharmaceutical quality testing.
- **Globalpharma** launched dedicated dissolution testing facilities within its QC labs, enabling greater testing throughput and compliance with global pharma standards.
- **Globalpharma** partnered with ZIM Laboratories to accelerate innovation in oral drug delivery, advancing regional ODF (oral disintegrating film) pharmaceutical technologies.
- **Globalpharma** implemented smart meters across operations, enabling real-time monitoring of energy consumption and improving sustainability performance.
- **Techsource** delivered a Group-wide digital transformation programme, including ORION ERP implementation across Masharie, Emirates Extrusion Factory, White Aluminum Extrusion; migration of Emirates Float Glass and Emirates Glass to Oracle Cloud; and deployment of Oracle Fusion Cloud across DI Head Office, Dubai Investment Real Estate and its SPVs and Al Mujama, strengthening enterprise automation and digital agility.
- **Emicool** secured AED 2.25 billion in Green Financing, enabling large-scale sustainability initiatives and decarbonization projects aligned with the UAE's Net Zero strategy.

# Leadership Message

## Message from the CEO

As Dubai Investments marks 30 years of growth, this Sustainability Report reflects a journey defined by resilience, disciplined investment, and an ability to adapt to changing market conditions. From modest beginnings, the Group has evolved into a diversified organisation with a strong presence across real estate, manufacturing, healthcare, education, and industrial development. This progress has been driven by strategic foresight, innovation, and a consistent focus on long term value creation for shareholders and stakeholders.

As we enter our fourth decade, our focus extends beyond near-term performance. Dubai Investments is shaping the foundations for the next phase of growth by embracing innovation, preparing for the impact of emerging technologies, and building scalable platforms that support diversification.

The theme of this year's report, **Creating Impact through Innovation: 30 Years of Growth and Resilience**, captures both our legacy and our direction. Over the past three decades, Dubai Investments has expanded across sectors through rigorous market research and strategic foresight. Innovation has been central to this journey, not only in products and services, but also in how we approach responsibility, governance, and sustainability.

The Board places strong emphasis on governance, oversight, and continuous learning. Over the years, we have enhanced our ESG disclosures, strengthened internal processes, and aligned our approach with national priorities such as We the UAE 2031, the UAE Net Zero by 2050 Strategic Initiative, and the UAE Clean Energy Strategy 2050. Across subsidiaries, focused efforts on resource efficiency, innovation, and operational discipline continue to support responsible growth.

Looking ahead, sustainability will remain a key enabler of resilience and value creation. As a Group, we will continue to strengthen alignment with national and international frameworks, improve transparency, and invest in initiatives that deliver measurable impact. By combining strong governance, innovation, and responsible investment, Dubai Investments remains committed to creating lasting value while contributing positively to the communities and economies in which we operate.

Sincerely,

**KHALID BIN KALBAN**

Vice Chairman & CEO of Dubai Investments PJSC

## Message from the Head of Sustainability

Sustainability at Dubai Investments continues to mature as an integral part of how the Group governs, operates, and creates long term value. As the Group marks 30 years of growth, this report reflects a shift from standalone initiatives to a more structured and integrated sustainability approach that supports resilience across a diversified portfolio.

During the year, Dubai Investments reviewed and refined its material topics to sharpen focus and better align priorities with business strategy and stakeholder expectations.

Environmental performance remained a key priority. The Group's approach to energy and emissions management is aligned with national ambitions, including the UAE Net Zero by 2050 and the UAE Clean Energy Strategy 2050. Subsidiary led actions focused on operational efficiency, process

optimisation, and product innovation, supported by a Group wide GHG inventory that informed the initiation of a structured decarbonisation roadmap. Progress was also made in waste reduction, circular practices, and biodiversity through innovation led solutions, improved operational controls, and greening initiatives across sites.

People, safety, and wellbeing continued to sit at the heart of the sustainability agenda. The year saw significant achievements in health and safety performance, quality standards, employee wellbeing programmes, and learning initiatives. The Group also reinforced its commitment to national talent development through internships, career engagement platforms, and alignment with the NAFIS programme, supporting Emirati participation in the private sector.

Looking ahead, our focus is on strengthening integration, improving the quality of data and disclosures. Guided by national priorities and recognised frameworks, Dubai Investments will continue to embed sustainability across operations, governance, and culture, supporting long term resilience and responsible growth.

### **Mohammed Saeed Al Raqbani**

Head of Sustainability Committee  
Dubai Investments PJSC

# About the Report

## 2025 ESG Report: 30 years of Growth & Resilience

Dubai Investments PJSC (hereafter referred to as Dubai Investments or the Group) presents its 2025 ESG Report, marking its next chapter in the sustainability journey. This edition of the report, reflects the Group's continued commitment to transforming vision into long-term legacies, guided by the ethos of "Inspiring by the past to empower the future."

Covering the reporting period from January 1 to December 31, 2025, the report outlines Dubai Investments' evolving ESG approach, key achievements, and demonstrates the Group's progress as it advances toward more sustainable and responsible business practices, along with celebrating 30 years of growth and resilience.

The theme for this year's Dubai Investment ESG report reflects the organization's commitment to value creation, responsible investment, and long-term sustainability. Over the past three decades, the Group has evolved from a pioneering investment entity into a diversified business with a proven ability to adapt, innovate, and thrive amid shifting market dynamics.

This milestone, therefore, serves as both a reflection of the journey so far and a reaffirmation of the Group's commitment to shaping a sustainable, inclusive, and future-ready economy for the decades ahead.

## Reporting Scope and Boundary

The Annual ESG Report presents material information on Dubai Investments' sustainability performance along with its subsidiaries for the reporting period from **1st January 2025 to 31st December 2025**. The reporting scope encompasses twelve wholly owned subsidiaries, focusing primarily on the real estate, service and manufacturing sectors

- Al Mujama Real Estate LLC
- Dubai Investments Park
- Dubai Investments Real Estate
- Emirates Building System
- Emirates Extruded Polystyrenes LLC
- Emirates Extrusion Factory LLC
- Emirates Float Glass
- Emirates Glass
- Global Pharma
- Gulf Metal Craft LLC
- Saudi American Glass Company
- Tech Source LLC

## Reporting framework and standards

Global Alignment:	Local Alignment:
	

Dubai Investments' sustainability initiatives are closely aligned with the UAE's national priorities, including We the UAE 2031, the UAE Net Zero by 2050 Strategic Initiative, and the UAE 2050 Clean Energy Strategy. In line with the Group's commitment to transparency and stakeholder accessibility, the report is also aligned with material Sustainable Development Goals (SDGs).

Alignment with the Global Reporting Initiative (GRI) Standards and Dubai Financial Market (DFM), the SDGs, and the Sustainable Development Goals is clearly indicated at the beginning of each section. In addition, the Appendix includes the indices, indicating a more detailed alignment with the various standards and frameworks

<b>2006</b>	<ul style="list-style-type: none"> <li>Established <b>Dubai Investments Real Estate</b></li> </ul>

<b>2010-2013</b>	<ul style="list-style-type: none"> <li>Strengthened advanced manufacturing and technology capabilities through Emirates Extruded Polystyrenes LLC, Emirates Extrusion Factory LLC, and Tech Source LLC</li> </ul>
<b>2017</b>	<ul style="list-style-type: none"> <li>Completed Green Community Phase 3 at Dubai Investments Park, expanding sustainable residential infrastructure.</li> <li>Commissioned the latest phase of DIP's wastewater treatment system, increasing total treatment capacity to 56,000 m<sup>3</sup> per day.</li> </ul>
<b>2018</b>	<ul style="list-style-type: none"> <li>Established the <b>University of Balamand Dubai</b> advancing higher education and talent development.</li> </ul>
<b>2019</b>	<ul style="list-style-type: none"> <li>Published the <b>first Sustainability Report</b>, formalizing the Group's ESG disclosure and sustainability reporting approach.</li> </ul>
<b>2021</b>	<ul style="list-style-type: none"> <li>Launched the <b>Dubai Investments Green Run</b>, a Group-wide community engagement initiative promoting sustainability awareness, health, and wellbeing.</li> </ul>
<b>2025</b>	<ul style="list-style-type: none"> <li>Issued the Dubai Investments CSR Policy, strengthening the framework for community engagement, social responsibility, and long-term value creation.</li> <li>Marked 30 years of Dubai Investments PJSC, reflecting three decades of diversified growth and operational scale.</li> </ul>

## Business Highlights 2025

Dubai Investments delivered strong performance in FY 2025 across sectors, supported by its diversified portfolio and disciplined investment strategy. Building on three decades of growth, the Group expanded through targeted developments, industrial capacity enhancement, international partnerships, and strategic acquisitions that reinforce long term value creation.

In real estate, Dubai Investments launched Asayel Avenue, the fourth residential cluster within Mirdif Hills, representing an investment of AED 400 million. The Group announced Al Vista, an AED 1.3 billion mixed use development in Meydan Horizon. International expansion progressed through DIP Angola, which signed a 10 million sq. ft. development agreement with Reportage Group and a 26,000 sqm manufacturing facility agreement with Trice Chemicals. A strategic agreement with Angola's Sovereign Wealth Fund advanced large scale real estate projects in the region.

Industrial capabilities were strengthened during the year. Construction commenced on a second float glass line at Emirates Float Glass, representing an investment of over AED 600 million and doubling production capacity. Emirates Glass entered the solar glazing segment through its partnership with ClearVue and launched new temperable double silver glass products offering enhanced solar performance. Emirates Extrusion Factory partnered with UCS to manufacture the UAE's first zero waste Green Curtain Wall System. Emirates Building Systems secured major contracts, including the Red Sea LAHEQ Project, the ADNOC MERAM project, and the KEZAD Food Hub development, reinforcing its role in large scale infrastructure delivery.

The healthcare platform advanced through Globalpharma's agreement with Angola's Ministry of Health, 25 planned product launches, and over 12 new product registrations. Regional expansion continued across Iraq, Oman, Kuwait, and Bahrain. Global Fertility Network strengthened its footprint in Saudi Arabia, while Al Mal Capital REIT acquired the NMC Royal Hospital real estate asset, increasing its portfolio value to approximately AED 1.4 billion. Emicool expanded its UAE presence through a concession agreement to operate Al Reef Cooling Company in Abu Dhabi.

Dubai Investments Park ranked among Dubai's leading investment destinations in Q1 2025. These developments reflect disciplined expansion, strengthened industrial capacity, and continued international growth.

# Economic Performance

## Key Financial Metrics

Revenue <b>AED 4.63 bn</b>	Operating Costs <b>AED 2.09 bn</b>	Donations & Sponsorships <b>AED 2.03 mn</b>
Profit after Tax 2025 <b>AED 1.55 bn</b>	Donations and sponsorship as % of after-tax profit 2025 <b>0.13 %</b>	

## ESG Highlights

### Emirates Float Glass

Earned the GORD International Green Mark Certification, enhancing its contribution to Global Sustainability Assessment (GSAS) Design and building projects worldwide.

### Dubai Investments

Organised AI-Awareness Sessions for professionals and C-Suite leaders to build understanding of Generative and Agentic AI, promote Responsible AI practices, and identify strategic opportunities for scalable implementation.

### Emirates Extrusion Factory

Integrated advanced water recycling systems across production lines to minimize consumption and reuse processed water wherever possible.

### Dubai Investment Real Estate

Organised the MTB Challenge, bringing together 400+ cycling enthusiasts and rewarding 48 winners. The event also witnessed participation from families and athletes for a day of energy and community engagement.

### Dubai Investments

Over 100 employees participated in the Dubai Fitness Challenge 30x30, embracing fitness, teamwork, and community spirit. 65 employees successfully completed the challenge clocking 23.45 million steps.

### **Emirates Glass**

Hosted a 'Lunch & Learn' session for Sharjah City Municipality, presenting advanced glass solutions that combine sustainability, energy efficiency, and architectural innovation.

### **Dubai Investments**

Implemented Single-Use Plastic Ban, aligning with Dubai Municipality's campaign, reducing 7,000+ plastic covers annually.

### **Globalpharma**

Provided training for first aid, the Automated External Defibrillator (AED) Operator Safety Awareness Training for the employees.

### **Dubai Investments**

Organized 12th Annual blood donation drive in collaboration with the Dubai Health Authority

### **Emirates Extruded Polystyrene**

Adopted Super E-Foam XPS, a high-performance insulation material with low thermal conductivity and minimal water absorption. 100% recyclable, it offers an energy-efficient and environmentally responsible solution that enhances product sustainability.

## **Awards and Recognition**

### **Dubai Investments**

Vice Chairman & CEO, was recognized among Forbes Middle East's 2025 Sustainability Leaders

### **Dubai Investment Real Estate**

DIR announced exceptional milestone of achieving 5 million safe working man-hours without a lost-time injury at Danah Bay in RAK

### **Saudi American Glass Company**

Has been named "Best Glass Company 2025" at the 4th Annual Saudi Building & Infrastructure Awards by IBMAR Conferences & Awards.

### **Emirates Building System**

Holds the CE Mark, a symbol of commitment to global standards of quality, safety, and reliability, ensuring steel structures meet the most demanding international requirements.

### **Emirates Float Glass**

Receives the GORD International Green Mark Certification, boosting ability to secure points for GSAS Design and Build Projects worldwide.

### **Globalpharma**

Globalpharma received an A-grade Health & Safety certificate from Dubai Municipality for the effective implementation of Occupational Health and Safety standards

### **Globalpharma**

Globalpharma ranked 1st in the Quality Award category at MIITE Abu Dhabi, highlighting its unwavering commitment to continuous improvement and top-quality standards among local manufacturers.

### **Dubai Investment Real Estate**

Dubai Investment Real Estate received the 'Best Mixed-Use Development' award at the Arabian Property Awards 2025-2026 for Danah Bay in Ras Al Khaimah

# Governance and Ethical Stewardship

<b>GRI Markers</b> 2-9 to 2-21, 2-25, 2-26, 202-1, 202-2, 207-2
<b>DFM Markers</b> G1, G2, G5, G7
<b>SDGs</b> SDG 8, SDG 16, SDG 17

Dubai Investments' corporate governance framework is grounded in transparency, accountability, and ethical conduct, enabling sustainable growth and long-term value creation. Strong Board oversight, supported by a structured Enterprise Risk Management framework and robust internal controls, underpins financial and operational stability. Regulatory compliance is embedded within governance practices through proactive engagement with regulators and regular oversight by the Audit and Risk Committees. Ethical standards are reinforced through a comprehensive Code of Conduct that sets clear expectations on integrity, confidentiality, and responsible behaviour. Alongside a focus on employee wellbeing, development, diversity, and community engagement, these practices support a culture of trust, resilience, and responsible corporate citizenship.

## Governance Structure and Oversight

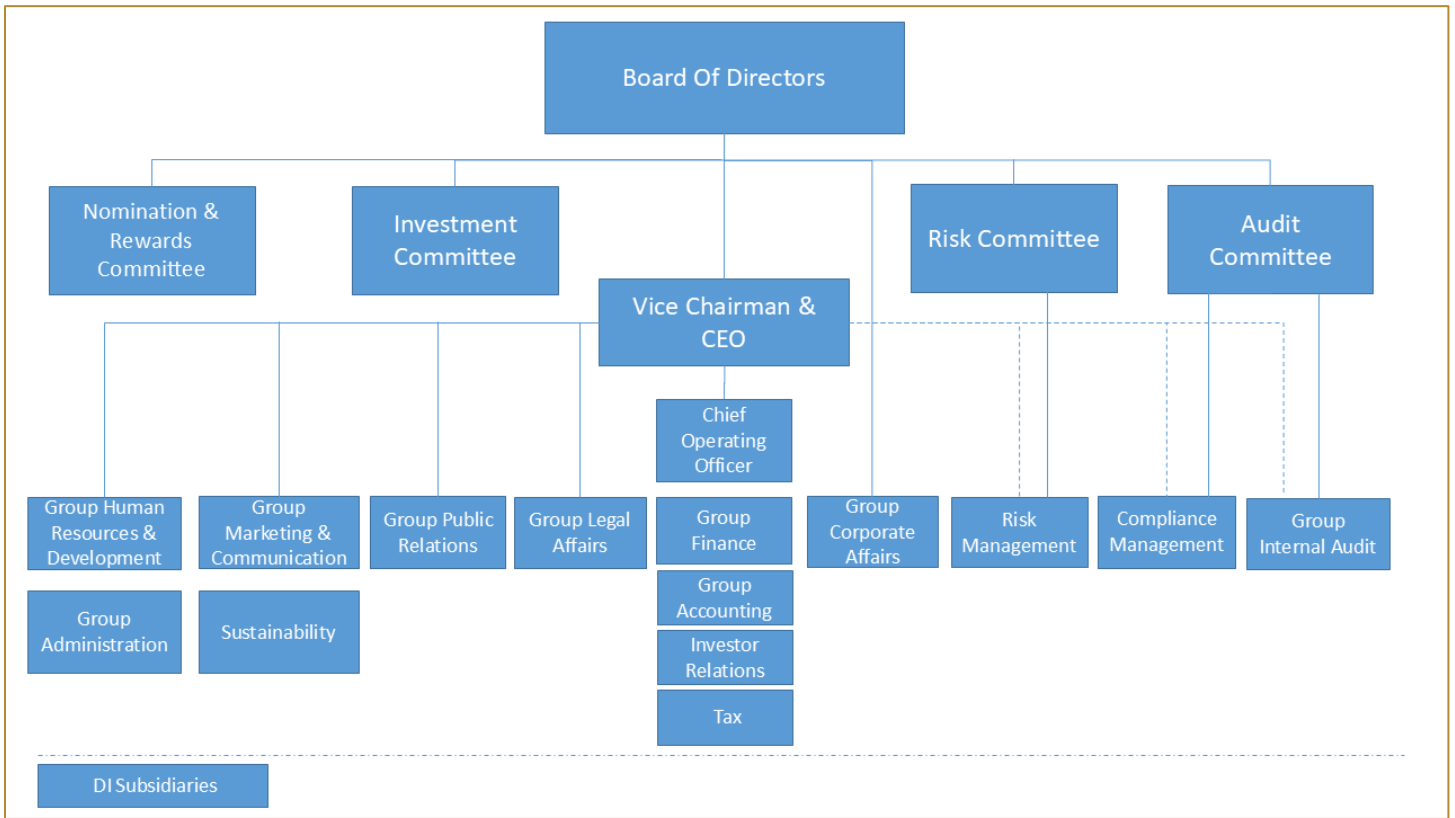

Dubai Investments' governance structure reflects the scale and diversity of its portfolio. Oversight is provided by a nine-member Board of Directors (BoD) with experience across manufacturing, finance, private equity, investment, and real estate. The Board comprises of five independent and four non-independent members. All Directors are non-executive, except for the Vice Chairman, who also serves as the Chief Executive Officer (CEO) of the Company. The Board convened five times during 2025.

The Board provides strategic oversight and reviews the Company's strategy and its implementation in coordination with executive management. Executive management is responsible for the day-to-day operations of the Company, in line with the Delegation of Authority approved by the Board.

The powers reserved for the Board are clearly defined in the Board Charter and are aligned with applicable legislation and regulatory requirements. Detailed job descriptions are in place for each member of the executive management. During 2025, the Board did not delegate any of its reserved powers to executive management.

Leadership development is recognised as an important element of effective governance. During the year, members of the C Suite participated in the "Resourcefulness and Creativity" programme, which focused on strengthening resourcefulness as a strategic capability.

## Organizational Structure of Dubai Investments

## Board of Directors

## Board Oversight Framework

Dubai Investments maintains a structured Board Oversight Framework to support effective governance. The framework includes board training, a Board briefing programme, and periodic board evaluations, which together strengthen oversight and decision-making.

Targeted training supports strategic leadership and sector-specific understanding, while regular briefings ensure that the Board members remain informed on key business, regulatory, and governance matters. Periodic evaluations are used to assess Board effectiveness, encourage reflection, and support continuous improvement in governance practices.

## Board Committees

To support effective oversight and strengthen its responsibilities, the Board has constituted five dedicated committees. These committees operate in line with legal requirements, regulatory frameworks, and corporate governance best practices.

<b>Audit Committee</b>	They support the Board in overseeing the integrity of the Group's financial statements and related disclosures. It reviews the effectiveness of internal controls over financial reporting, oversees internal and external audit processes, reviews related party transactions and conflicts of interest, monitors legal disputes and insurance coverage, and follows up on the implementation of corrective actions related to internal control and risk management.
<b>Nomination &amp; Rewards Committee</b>	They oversee matters related to Board composition, independence, and performance. Its responsibilities include verifying the independence of Board members, approving human resources policies, conducting annual Board evaluations, reviewing remuneration and benefits policies for the Board and executive management, promoting gender diversity, and reviewing Emiratization initiatives across the Company.

<b>Risk Committee</b>	They assist the Board in fulfilling its oversight responsibilities in relation to enterprise risk management. It oversees the risk management framework, reviews risk appetite, risk tolerance, and risk limits, monitors the Company's risk profile, reviews insurance coverage, and reports to the Board on material risk exposures and significant changes in risk levels.
<b>Management and Supervision of Insider's Trading (ITSC) Committee</b>	They oversee compliance with insider trading regulations. It maintains a comprehensive register of insiders, including temporary insiders, monitors trading and shareholding declarations, reviews the Company's securities dealing policy, and submits required statements and reports to the market and relevant authorities.
<b>Investment Committee</b>	They are responsible for reviewing and approving investment and divestment proposals in line with the Group's corporate strategy, risk limits, and return requirements. It oversees treasury investment activities, evaluates the impact of proposed transactions on capital structure and debt covenants, and approves non-binding and binding offers within parameters approved by the Board.

### Sustainability Committee

The Sustainability Committee is formed by senior management from different business sectors working alongside Sustainability Champions selected from across departments and subsidiaries. The Committee is responsible for developing the sustainability strategy, including the formulation of action plans, and for regularly reviewing the strategy. This structure reflects the Company's approach to managing climate related and ESG matters.

### Enterprise Risk Management

The Board of Directors have oversight responsibility for the Group's risk management framework, supported by a dedicated Risk Committee. The Committee oversees the development and application of risk related policies and processes, with the Enterprise Risk Management framework forming the foundation of the Group's approach. The framework establishes a structured method for identifying, assessing, monitoring, and mitigating material risks, supported by defined controls across the organisation.

Risk identification is informed by independent assessments of key risk areas, which are reviewed through the governance process. The Group Internal Audit function reviews the effectiveness of the Group Risk Function and provides assurance to the Board and the Audit Committee on the adequacy of risk management practices.

Risk mitigation is coordinated through the Group Risk Function, with a focus on managing operational, reputational, and market risks. Ongoing evaluation includes oversight by the Audit Committee, with consideration of financial implications to support the Group's stability and long-term resilience.

During the year, the Compliance Head undertook focused training programmes covering the following areas:

- Customer Due Diligence/ Enhanced Due Diligence for DNFBPs
- Understanding and assessing the risks of money laundering and terrorist financing for the DNFBP sector
- Enhancing AML/CFT Compliance: STR/SAR Reporting
- Compliance Officer/MLRO Tasks
- Guidance on Targeted Financial Sanctions for FIs, DNFBPs & VASPs
- Importance of KYC covering regulatory requirements and best practices
- Virtual outreach session on Guidance for Licensed Financial Institutions on CDD/KYC & Record Keeping

These trainings reflect the leadership's focus on keeping compliance capabilities up to date and strengthening oversight of regulatory and financial crime risks.

## **Ethical Business Conduct**

The Code of Conduct establishes clear expectations for employees to uphold integrity in all interactions. It is guided by the core values of ethics, integrity, accountability, excellence, human capital development, and innovation. The code provides direction for interactions with clients, colleagues, suppliers, regulators, and communities. It also addresses conflicts of interest, financial conduct, confidentiality, and responsible practices, while ensuring compliance with applicable laws and regulations. By translating these values into practical standards of behaviour, the code supports ethical decision making, strengthens governance, and contributes to sustainable growth.

## **Grievance Redressal Mechanisms**

Dubai Investments is committed to the fair and consistent application of its policies while safeguarding the rights of employees. The grievance policy sets out a clear process for raising and addressing work related concerns, including matters related to workplace conduct, employee relations, working practices, the work environment, and equal employment opportunities. Concerns are first encouraged to be resolved informally through discussion with line managers or senior staff, with Human Resources involved where matters are sensitive. Where issues cannot be resolved informally, a formal grievance process is available. Employees

who are terminated for cause or due to legal offences are not eligible to raise grievances under this policy, in line with UAE labour law requirements.

Formal grievances are addressed through a defined escalation and appeal process, with Human Resources overseeing proceedings and record keeping. Decisions are reviewed by a designated committee and concluded by the Vice Chairman and Chief Executive Officer or the concerned General Manager. The outcome is communicated promptly, and the process is conducted with confidentiality, fairness, and respect for all parties.

<b>Particulars</b>	<b>2023</b>	<b>2024</b>	<b>2025</b>
Number of grievances filed	1	0	0
Percentage of grievances addressed or resolved	100%	100%	100%

Strategic Focus Areas		
Dubai Investments has established a sustainability framework that defines its key themes and governance structure. Oversight is supported by a Sustainability Committee, enabling coordinated decision-making across the Group.	During the year, the Group reviewed and refined its material topics to ensure greater clarity and focus. This exercise built on the previous materiality assessment and resulted in a more concise set of priorities that reflect the Group's strategic direction and stakeholder expectations.	The Group continues to strengthen its sustainability approach through alignment with recognised frameworks such as GRI Standards, DFM requirements, the UN Sustainable Development Goals, and Dubai Vision 2030..

## ESG Focus Areas

Sustainability Theme	Sustainability Objective	SDGs Aligned
<b>A Company with Integrity</b>	<ul style="list-style-type: none"> <li>Implement and reinforce a robust corporate governance framework and processes which are followed consistently across the Group.</li> <li>Ensure that business is conducted in an ethical manner.</li> <li>Implement digital solutions to monitor sustainability performance.</li> <li>Ensure that sustainability is integrated at a board level.</li> </ul>	 
<b>Valuable Relationships</b>	<ul style="list-style-type: none"> <li>Treat suppliers with fairness and respect.</li> <li>Integrate sustainability criteria into procurement policies to promote sustainability amongst suppliers.</li> <li>Ensure that large contractors providing long term services to Dubai Investments (e.g. construction project contractors) treat their employees fairly and in accordance with UAE Labor Law.</li> <li>Maintain a responsible relationship with customers.</li> <li>Develop responsible products which will help customers be more sustainable.</li> </ul>	
<b>Operating Responsibly</b>	<ul style="list-style-type: none"> <li>Develop Health, Safety, and Environment (HSE) Policy.</li> <li>Promote health and wellness initiatives amongst employees and in the community.</li> <li>Ensure compliance to the UAE Labor Law with reference to the treatment of Dubai Investments Group employees.</li> </ul>	

	Seek best in class practices beyond the minimum regulations.	
<b>Protecting Natural Resources</b>	<ul style="list-style-type: none"> <li>• Demonstrate commitment for tackling climate change.</li> <li>• Develop an efficiency plan relating to the use of energy and water.</li> <li>• Identify and mitigate the negative environmental impacts caused by the Group’s activities.</li> </ul>	
<b>Supporting Communities</b>	<ul style="list-style-type: none"> <li>• Contribute to the development of vocational skills of young people in the community.</li> <li>• Contribute to the development of the local economy by providing jobs and facilitating the growth of start-up businesses and small and medium-sized enterprises.</li> <li>• Be a socially responsible corporate citizen by investing in the community, donating to charitable causes, and providing employees with the opportunity to participate in corporate social responsibility initiatives.</li> </ul>	
<b>Strong Workforce</b>	<ul style="list-style-type: none"> <li>• Demonstrate commitment to improving female representation.</li> <li>• Significantly improve female representation at all levels of operation, enhancing perspective, decision-making, and performance.</li> <li>• Invest in the development of workforce.</li> </ul>	
<b>Amplifying Economic Impacts</b>	<ul style="list-style-type: none"> <li>• Optimize for growth by steering economic diversification towards lower-carbon sectors, and sectors with lower ESG risks and greater ESG-related opportunities.</li> <li>• Measure, monitor and improve the overall ESG posture of Group’s portfolio companies.</li> <li>• Initiate sustainability due diligence and reporting requirements for Investments.</li> </ul>

## Supply Chain Management

661.7 AED Million Procurement Spending on Local Suppliers	71% of the Total Procurement budget was spent on Local Suppliers
---	--

Dubai Investments sets clear expectations for ethical conduct and integrity across its supply chain. The Supplier Code of Conduct, adopted by the subsidiaries, defines standards related to fair business practices, operational discipline, and environmental and social responsibility. Suppliers are required to comply with the Code and are encouraged to apply its principles across their operations and supply chains.

Suppliers with access to confidential information are required to meet defined data protection and control requirements, which are assessed through a structured risk evaluation covering system security, access controls, and vulnerabilities. Supplier engagement is further supported through annual targeted surveys that assess labour practices, human rights, environmental management, and occupational health and safety, helping maintain a responsible and sustainable supply chain.

Several subsidiaries across the Group continue to strengthen local value creation through responsible procurement practices. Entities such as Tech Source, Emirates Extrusion Factory, and Emirates Extruded Polystyrene source maximum of their supplies from local vendors.

Taking a proactive approach to embedding social criteria within its supply chain, Emirates Glass strengthened its responsible procurement practices during the year. In 2025, the company screened new vendors against defined social parameters and onboarded 98 suppliers through this process, with many new supplier additions assessed for compliance with social standards.

## Stakeholder Engagement

Stakeholder engagement is carried out on a regular basis to understand priorities, emerging issues, and ESG topics most relevant to the Group. Insights from this ongoing dialogue inform decision making, risk and opportunity assessment, and the materiality process, helping ensure that strategies remain aligned with stakeholder expectations.

Stakeholders	Key Issues	Engagement Methods
<b>Shareholders and Investors</b>	<ul style="list-style-type: none"> <li>• Risk Management</li> <li>• Corporate Governance</li> <li>• Transparency and Reporting</li> <li>• Information, Security/Cybersecurity &amp; System Availability</li> <li>• Sustainable Finance</li> </ul>	<ul style="list-style-type: none"> <li>• Annual General Meetings</li> <li>• Corporate Annual Report</li> <li>• Official News Releases</li> <li>• Annual Corporate Governance Report</li> <li>• Investalk – Quarterly Newsletter</li> </ul>

## Materiality Assessment

Dubai Investments' sustainability pillars are aligned with the most significant material topics identified through a stakeholder engagement and materiality assessment conducted in line with GRI Standards. In 2025, the material topics were revisited to refine and consolidate priorities, ensuring closer alignment with the Group's strategic direction and outlook.

### Methodology for Materiality Assessment

#### Environment

- Energy and GHG Emissions
- Environmental Management

#### Social

- Health and Safety
- Diversity and Inclusion
- Human Capital Development
- Community Relation

#### Governance

- Risk Management
- Corporate Governance
- Responsible Supply Chain
- Cyber Security and Data Privacy
- Product Safety and Quality
- Business Ethics
- Responsible Investment
- Customer Relationship Management

# Responsible Resource Management

GRI Markers	DFM Markers	SDGs
302, 303, 304, 305, 306	E1, E2, E3, E4, E5, E6, E7, E10,	SDG 6, SDG 7, SDG 12, SDG 13, SDG 14, SDG 15

## Introduction to Resource Management

Resource management is a core component of Dubai Investments’ approach to environmental responsibility. Across its operations, the Group focuses on the efficient use of energy, water, and materials, supported by regulatory compliance, operational controls, and continuous improvement. By strengthening resource efficiency and reducing environmental impact, Dubai Investments aims to support long term resilience while aligning with the UAE Net Zero 2050 Strategy and the Dubai Clean Energy Strategy 2050.

## Energy and Emission Management

Dubai Investments’ approach to energy and emissions management is aligned with national priorities, including the UAE Net Zero 2050 Strategy and the Dubai Clean Energy Strategy 2050. During the year, the Group focused on subsidiary led actions centred on operational efficiency, process optimisation, and product innovation. These efforts were supported through strategic collaborations and targeted improvements across manufacturing and industrial operations, contributing to enhanced energy efficiency and reduced emissions intensity.

### Clean Energy Innovation

At **Emirates Glass**, the year marked a significant step in integrating clean energy into building materials. The collaboration with ClearVue Technologies reflects the growing importance of energy efficient and high-performance building materials as the construction sector responds to climate and energy challenges. By integrating solar generation directly into architectural glass, the innovation addresses the dual need for renewable energy production and functional building performance. This approach supports reduced operational energy demand while maintaining transparency, insulation, and durability, positioning glass as an active contributor to clean energy outcomes rather than a passive building element.

This partnership underscores the growing market appetite for clean, renewable energy solutions embedded into building materials. The solar glazing, spandrel and cladding technology is designed for use in commercial, residential, and institutional developments and is suitable for façades, skylights, windows, canopies, and even greenhouses – offering a blend of function, energy efficiency, and design flexibility.

The partnership aligns with regional sustainability priorities and the UAE’s Net Zero by 2050 ambition, recognising the suitability of solar integrated façade solutions in high solar exposure environments. By combining local manufacturing capability with advanced solar glazing technology, Emirates Glass strengthens its role in advancing clean energy innovation within the regional construction value chain.

**Emirates Float Glass (EFG)** was awarded the Gulf Organization Research Development (GORD) International Green Mark Certification, which is supported by Environmental Product Declarations prepared in accordance with ISO 14025 and Product Category Rules under EN 15804, with lifecycle assessment data aligned to ISO 14040 and ISO 14044 standards. This certification allows EFG products to support GSAS Design and Build projects across Qatar, Kuwait, Oman, and Saudi Arabia by enabling the use of verified environmental performance data. The certification reflects EFG's alignment with regional sustainability requirements and its focus on lower-emission building materials.

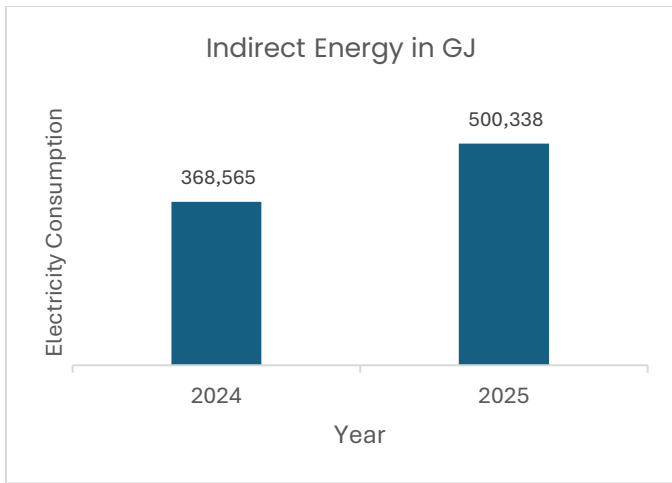

**Saudi American Glass** and **Emirates Extrusion Factory** continue to strengthen energy efficiency and emissions management through practical, operations-led measures. Both facilities focus on optimising energy-intensive processes through regular preventive maintenance, equipment monitoring, and improved operating schedules, with particular attention to furnace efficiency and production controls.

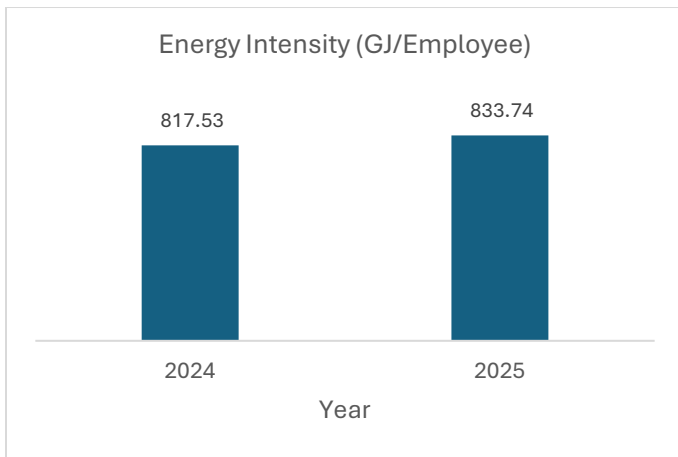

**Emirates Extrusion Factory** strengthened its energy efficiency efforts through the installation of 20 solar powered lights, each with a capacity of 400 watts, across the front façade, backyard, and along both sides of the factory and office building. Designed with an average battery backup of six hours, the system supports reduced grid electricity consumption during evening operations while enhancing on site safety and visibility. This targeted investment reflects the company's practical approach to integrating renewable energy solutions within its operational infrastructure

### Energy Tables

\*The total energy consumption for 2024 includes Propane usage amounting to 1,688 GJ, with no fuel oil consumption reported during the year. In 2025, Fuel Oil consumption of 5,004 GJ was recorded, while propane usage was nil for the reporting period.

**Note:** The Energy consumption, GHG emissions and Water consumption data for the year ending December 31, 2024, have been restated due to an improvement in data availability (including natural gas, propane, and LPG consumption) and methodology. The CY24 Energy, GHG and Water intensity number has been revised accordingly.

### Renewable Energy Contribution

During the year, two subsidiaries increased the proportion of renewable energy within their overall energy mix, strengthening the Group's transition towards cleaner energy sources.

Renewable Energy in GJ	Al Mujama
Renewable Energy Generated	2865.25
Renewable Energy Consumed	982
Renewable Energy Sent to the Grid	1884

Emirates Glass continued to integrate renewable energy within its operations, consuming 9,945.95 GJ in 2024 and 9,456.43 GJ in 2025. The sustained utilisation of renewable energy reflects a consistent approach to diversifying its energy mix and strengthening operational resilience through cleaner energy sources.

## Road to Decarbonisation

Dubai Investments initiated its decarbonisation roadmap with the completion of a Group wide GHG inventory, providing a clear understanding of emissions sources and energy intensive activities across its operations. This assessment enabled the identification of key emissions hotspots and informed priority areas for action. Building on these insights, the Group reviewed sector specific best practices to identify appropriate emissions reduction levers that are relevant to its diverse business portfolio.

High energy consuming machinery and operational processes were then assessed to identify potential alternatives, upgrades, and efficiency improvement opportunities, with particular focus on activities with higher emissions intensity. These actions form the basis of a structured and phased decarbonisation pathway. The next stage of

the roadmap will involve assessing the technical and commercial feasibility of identified initiatives to support informed decision making and practical implementation aligned with UAE climate objectives.

### Embedding Environmental Risk Management in Operations

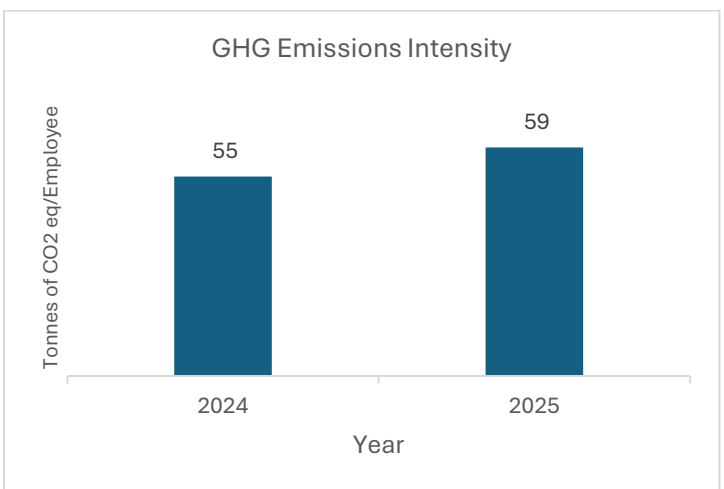

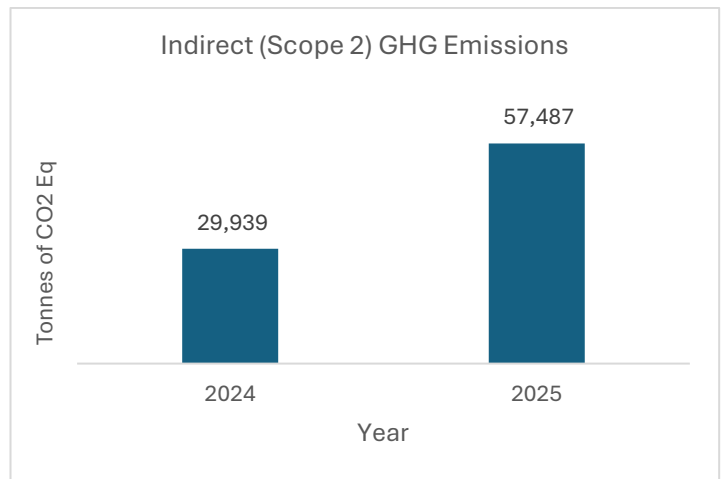

Emirates Building Systems has formalised environmental risk management through a structured 'Register of Hazard Identification, Risk Assessment and Environmental Aspect Impact'. The register covers fabrication, yard logistics, maintenance workshops, storage, utilities, and office functions. Each activity is mapped to its environmental aspects, potential impacts, significance rating, and required control measures, ensuring risks are identified and managed within daily operations.

The assessment highlights key environmental exposures including air emissions from machinery and vehicles, electricity and fuel consumption, dust, and metal particulates from cutting and welding, noise generation, and risks of soil and water contamination from lubricants, fuels, and chemicals. Waste streams such as scrap metal, paint residues, contaminated materials, wastewater, municipal waste, and electronic waste are documented with defined management procedures to prevent landfill burden and environmental contamination.

Control measures are integrated into operational practices. Used oils and wastewater are collected in designated containers and disposed of through approved contractors. Hazardous materials are stored in ventilated areas with secondary containment systems. Fuel storage and gas handling activities are subject to routine inspection and emergency response protocols. Ventilation systems, air quality monitoring, and mandatory protective equipment are in place to manage emissions and exposure.

By linking operational activities directly to environmental risks and controls, Emirates Building Systems has embedded environmental management into its governance framework, providing a clear and auditable structure for managing environmental performance across its facilities.

## GHG Emissions Tables

**Note:** The Energy consumption, GHG emissions and Water consumption data for the year ending December 31, 2024, have been restated due to an improvement in data availability (including natural gas, propane, and LPG consumption) and methodology. The CY24 Energy, GHG and Water intensity number has been revised accordingly.

## Water Stewardship

Dubai Investments' approach to water stewardship is grounded in responsible resource management and alignment with national water security priorities, including Dubai's objective to promote the use of recycled water by 2030. Across operations, efforts focus on reducing freshwater consumption, improving reuse, and strengthening water efficiency. At Emirates Extrusion Factory, water recycling systems are integrated into production processes to minimise consumption and reuse process water wherever feasible.

Across other operations, water stewardship initiatives include the use of effluent treatment plant systems, the reuse of rejected water for multiple operational purposes, and the upgrading of washroom facilities with air and water based flushing systems at sites such as Global Pharma. These measures contribute to improved water efficiency, reduced freshwater dependency, and more responsible water management across the Group's operations.

## Building Resilience Through Water Infrastructure

Water management at Dubai Investment Park has evolved in step with the growth of the community it serves. What began in 1999 as a modest wastewater treatment facility with a capacity of 500 cubic metres per day has, over time, grown into a fully integrated system designed to support a large, mixed-use urban and industrial ecosystem. Developed in phases and expanded as demand increased, the most recent upgrade was commissioned in 2017, bringing the system's total treatment capacity to 56,000 cubic metres per day, with 36,000 cubic metres per day in the West and 20,000 cubic metres per day in the East.

Today, this infrastructure supports a wide range of activities across the DIP area, treating wastewater generated from labour accommodation, residential villas and apartments, hotels, hospitals, schools, warehouses, and most light industries operating within the park. By providing reliable and consistent wastewater treatment at scale, the system forms a critical backbone for environmental protection and public health in a rapidly growing development.

Each day, the West and East treatment plants collectively process large volumes of wastewater, producing treated effluent that is safely reused within Dubai Investment Park.

During **2025**, more than **17.6 million cubic metres of wastewater** were treated, generating over **16.6 million cubic metres of treated water**, with stable performance maintained throughout the year.

This treated water is reused exclusively for landscaping and green infrastructure, supporting the irrigation of trees, landscaped common areas, EMICOOLS facilities, warehouses, schools, and labour accommodation zones. In a water-scarce region, this approach plays an important role in maintaining green spaces and enhancing the liveability of the park, while keeping potable water reserved for essential domestic and operational needs.

Through long-term investment in wastewater treatment and responsible reuse, Dubai Investment Park continues to strengthen its approach to water stewardship, supporting sustainable urban development while responding to the realities of growing demand and a changing climate.

**Note:** The Energy consumption, GHG emissions and Water consumption data for the year ending December 31, 2024, have been restated due to an improvement in data availability (including natural gas, propane, and LPG consumption) and methodology. The CY24 Energy, GHG and Water intensity number has been revised accordingly.

## Waste Reduction and Circular Practices

Dubai Investments' approach to waste management is aligned with the UAE's Net Zero by 2050 ambition, with a focus on reducing waste generation, improving recycling, and supporting the transition towards a circular economy. Across its operations, the Group integrates waste reduction measures into manufacturing processes, construction practices, and day-to-day operations, supported by regulatory compliance and approved waste management partners.

Dubai Investments organized  
E-waste collection drive

### Advancing Circular Construction

During the year, Emirates Extrusion Factory formalised an exclusive partnership with UCS Green Solutions to manufacture the region's first Green Curtain Wall System designed to eliminate material wastage at the installation stage. The collaboration marks a significant shift from conventional façade systems, where on site cutting and adjustments often result in avoidable material loss and increased environmental impact.

The system has been engineered to optimise material usage through precision manufacturing and design integration, ensuring components are produced to exact specifications before reaching site. This approach reduces offcuts, improves installation efficiency, and minimises construction waste at source. By embedding resource efficiency into product design rather than relying solely on downstream waste management, the initiative reflects a practical application of circular economy principles within the construction value chain.

For Dubai Investments, the initiative strengthens local industrial capability while responding to growing demand for sustainable building solutions. It aligns with national objectives to reduce construction waste, enhance manufacturing competitiveness, and promote innovation driven industrial growth. The project demonstrates how product innovation, operational capability, and sustainability objectives can be integrated to deliver measurable environmental and economic value.

At an operational level, waste management practices across subsidiaries emphasise segregation, recycling, and responsible disposal. Emirates Extrusion Factory implements structured waste segregation processes, with aluminium waste fully recycled and general waste managed through approved contractors. Electronic waste is handled separately in line with regulatory requirements, and paper consumption is reduced through increased use of digital systems.

At Global Pharma and other facilities, designated areas are maintained for the segregation of carton, paper, and metal waste to enable organised collection and recycling by authorised contractors. These practices support improved waste traceability, higher recycling rates, and reduced landfill disposal. Together, these initiatives reflect a practical and disciplined approach to waste reduction and circular practices across Dubai Investments' operations.

DI supported 'Clean UAE 2025', a clean-up drive organized by Emirates Environment Group. 45,692 kgs of waste was collected and 98 km<sup>2</sup> of land was restored with the help of 84,123 participants covering all seven Emirates of UAE.

## Advancing Circular Waste Management

Dubai Investments Park (DIP) is a unique and self-contained mixed-use master community spanning 2,300 hectares across three integrated zones: industrial, commercial, and residential. Given the scale and diversity of activities within the park, waste management is a material operational and environmental issue. Managing waste responsibly is essential to maintaining environmental quality, regulatory compliance, and community liveability.

### Waste Diversion Process used by DIP

 **Material Recovery**  
Recyclable materials are

 **Waste-to-Energy**  
Waste is converted into energy

 **RDF Conversion**  
Residual waste is turned into

### 2025 Waste Diversion Performance of DIP

Total Waste Generated	Recyclables Recovered (MRF)	Waste Diverted to Waste to Energy	Waste Converted to RDF	Recycling Rate	Waste Diversion Rate	Net Waste Diversion
1,519 tons	232.01 tons	471.23 tons	141.28 tons	21%	48%	68%

The 2025 data shows that 21% of total waste generated was directly recycled, reflecting consistent material recovery efforts through structured segregation and MRF processing. When combined with Waste-to-Energy and RDF conversion pathways, the overall net waste diversion reached 68 percent, indicating that a significant majority of waste was redirected away from landfill through alternative recovery and resource optimisation mechanisms.

The environmental impact of waste management activities was evaluated using the USEPA Waste Reduction Model (WARM), a globally recognised methodology that quantifies GHG emissions and energy effects associated with different waste treatment pathways. In 2025, emissions from general waste landfilling were calculated at 446.12 MTCO<sub>2</sub>e, reflecting the climate impact of waste that ultimately reached landfill. The overall energy impact was recorded at -89.71 million BTU, with the negative value indicating a net environmental benefit. This means that the diversion measures implemented, including recycling, Waste-to-Energy processing, and conversion to Refuse-Derived Fuel (RDF), collectively avoided more energy use and emissions than would have occurred if the same volume of waste had been entirely landfilled. In essence, recovered materials reduced demand for virgin resource extraction and manufacturing, while energy recovery pathways offset conventional fuel consumption.

Non-Hazardous Waste Composition (in MT) in 2025	Waste Generated	Waste diverted from disposal	Waste directed to disposal
Plastic waste	278.29	0.00	278.29
Construction and demolition waste	1.00	0.00	0.00
Other Non-hazardous waste generated	3149.86	0.70	1927.86

## Biodiversity and Nature-positive Effort

Dubai Investments contributes to national sustainability objectives by supporting initiatives that protect natural ecosystems and promote greening across the UAE. Biodiversity-related actions during the year focused on increasing green cover, raising environmental awareness, and encouraging employee participation in nature-based initiatives.

Tree plantation formed a key part of this approach. Dubai Investments employees participated in the UAE Government's Planting Week, planting Ghaf trees that are well-suited to the region's arid climate. The Ghaf trees play an important role in water conservation, soil stabilisation, air quality improvement, and providing habitat for native species, making it a meaningful choice for local ecosystem restoration.

At the subsidiary level, Emirates Float Glass undertook multiple greening initiatives, including a tree planting activity at Jubail Island in Abu Dhabi and the planting of over 200 trees within its factory premises. These efforts contribute to enhancing local biodiversity while embedding environmental responsibility within operational sites.

<b>In 2025, Dubai Investment Planted:</b>	
<b>1,200</b> Trees planted including 100 Ghaf trees and 1,150 Conocarpus green planation	<b>850 Sq.m</b> of Paspalum grass planted

# Digital Innovation and Customer Trust

<b>GRI Markers</b> 418	<b>DFM Markers</b> G6
---------------------------	--------------------------

Dubai Investments recognizes that robust data protection, privacy, and cybersecurity practices are fundamental to preserving stakeholder confidence and supporting sustainable business operations. It continued to strengthen its commitment towards innovation, digital transformation, and customer trust by driving technology-led initiatives across its subsidiaries and actively participating in key industry platforms.

During the year, Dubai Investments renewed its liquidity provider agreement with xCube, reinforcing market confidence and trust in the Group's governance and financial transparency. Globalpharma advanced its digital quality systems by implementing an E-Logbook in Quality Control, digitizing testing reports, reducing paper usage, and minimizing manual intervention, thereby enhancing data integrity and operational efficiency. The Globalpharma team also participated in Artificial Intelligence (AI) Week, hosted by the Dubai Centre for Artificial Intelligence, reflecting the Group's focus on leveraging emerging technologies to drive innovation in manufacturing.

Emirates Glass showcased its innovative, precision-engineered solutions at the Ajban Defense Industry & Technology Exhibition 2025, demonstrating its capability to deliver high-quality, region-specific products for the defence and industrial sectors and strengthening customer confidence in its technical expertise.

Further supporting enterprise-wide digital transformation, Techsource officially launched the EBS and EEP implementation project under Orion ERP, marking the next phase of integrated systems adoption aimed at improving operational transparency, efficiency, and customer responsiveness.

## Enhancing Customer Experience

Dubai Investments places a strong emphasis on enhancing customer experience as a core component of its sustainable growth strategy. By investing in digital capabilities, service quality, and employee training, Dubai Investments seeks to provide a seamless and transparent experience that strengthens trust, supports customer resilience, and contributes to broader economic and social value creation in the communities it serves.

## Data Protection, Privacy, and Cybersecurity

Data security is critical to maintaining customer trust, protecting sensitive information, and ensuring compliance with applicable laws and regulations. Robust data protection measures help safeguard customers' and stakeholders' data from unauthorized access, misuse, or loss.

Tracking and documenting data security incidents enables the organization to respond promptly, identify root causes, strengthen controls, and prevent recurrence. Effective incident monitoring also supports transparency, regulatory compliance, and continuous improvement of information security practices.

### **Trainings Undertaken in 2025:**

- Data Protection & Inadvertent Information Disclosure
- Financial Security & Fraud Awareness
- Verification, Escalation & Reporting Procedures
- Ransomware Threat Awareness & Incident Response
- Security Awareness & Continuous Training
- Secure Communication & Information Handling
- Risk-Based Security Decision Making
- Internet of Things (IoT) Security Risks & Controls
- Secure Travel & Remote Work Practices
- Removable Media & USB Security

The Group’s Data Privacy and Cybersecurity Policies are designed to protect against data breaches and the loss of customer information. Approximately 40 IT and Information Security policies are available to employees through the intranet portal, many of which are outlined in the Policy Suite section of this report, with the other major policies highlighted below:

- Log Management and Monitoring Policy
- Secure Asset Disposal Policy
- Acceptable Use Policy
- Access Control Policy
- Supplier Relationship Information Security Policy
- Information Security Awareness Policy
- Removable Media Policy
- Information Security Roles and Responsibilities
- Wireless Access Policy
- Network Security Policy
- Information Classification and Handling Policy

Dubai Investments tracks incidents related to data security, including identified cases of data leaks, thefts, or losses of customer data. Appropriate controls and corrective actions are implemented to prevent recurrence and to strengthen information security and customer trust.

<b>Substantiated complaints concerning breaches of customer privacy and losses of customer data</b>			
<b>S. No.</b>	<b>Parameters</b>	<b>Unit</b>	<b>FY 25</b>

### Talent Growth and Retention

Dubai Investment understands the crucial role that its people play in driving the growth and future success of the organisation. It not only enables a dynamic, supportive, and high-performing culture but also allows top talent to thrive. The employees at all levels are encouraged to take initiative and are equipped with the skills and tools they need to achieve their goals in a fast-paced environment.

Total Workforce  
**2,706**

Total Training Hours  
**27,270**

Total Sustainability Related  
Training Hours - **500**

Dubai Investments remains committed to attracting and developing talent that aligns with its long-term vision, fostering a culture of fairness, equal opportunity, and diversity as drivers of sustainable success. In 2025, the Group reinforced this commitment by participating in the National Service Career Fair, contributing to the empowerment of national talent, and supporting a future built on pride and capability. Dubai Investments also took part in Career Ru'ya, providing a platform to engage with emerging professionals and highlight the wide range of career opportunities available to Emiratis.

The Group's subsidiaries continued to demonstrate strong dedication to talent development. Globalpharma, for example, offered internships to students from American University, providing valuable real-world insight into the pharmaceutical industry and inspiring them as they shape their future careers. Additional internship opportunities were offered to the students from the Higher Colleges of Technology, American University, and Al Ain University, further nurturing the next generation of industry professionals and supporting the UAE's broader talent-development agenda.

**Workforce by Employment Level**

### Training and Development

Dubai Investments prioritises employee growth and organisational success by offering targeted training programmes that address key objectives. In 2025, the company delivered 20,449 hours of training on impactful initiatives aimed at enhancing technical expertise, leadership capabilities, and operational efficiency. They actively advanced towards their commitment to sustainable development and organizational excellence through a range of strategic engagements and capability-building initiatives.

Training hours for Sustainability related awareness – 500 hours

The Group participated in the International Conference on Business, Energy, Environment and Sustainability, joining global sustainability champions and industry leaders to exchange insights and contribute to discussions shaping a more resilient and sustainable future.

As part of their Learning & Development initiatives, employees across Dubai Investments and its subsidiaries undertook Anti-Money Laundering (AML) and Focal Points Training delivered by the International Compliance Association (ICA), reinforcing the Group's commitment to governance, transparency, and ethical conduct.

Globalpharma, celebrated Quality Day under the theme 'Quality: From Compliance to Performance', featuring inter-departmental quizzes, expert talks on the role of AI in compliance, the submission of improvement ideas, and the recognition of a Quality Champion.

### Strengthening Learning at Globalpharma

In 2025, Globalpharma significantly strengthened its learning and development initiatives, delivering 4,390 training hours, more than double the 2,172 hours recorded in 2024. This increase reflects both workforce expansion and the successful launch of the Udemy Learning Management System, which has broadened access to structured, high-quality learning across the organisation.

Training participation spanned key functions including Quality, Production, Supply Chain, Sales and Marketing across regional markets, Leadership, Finance, Engineering, Utilities and HSE, Pharmacovigilance, Regulatory Affairs, HR, and IT.

By combining role specific technical training with leadership development and digital learning, Globalpharma has strengthened workforce readiness, enhanced cross functional competence, and reinforced its commitment to continuous improvement and operational excellence.

DI facilitated a 'Finance for Non-Finance' program aimed at equipping employees with essential financial literacy skills, enabling them to analyse financial statements, manage budgets responsibly, and support

informed and sustainable business decision-making. To enhance oversight and operational integrity, several specialized technical training programs were organized for the Internal Audit and Risk teams. These included:

**Arbutus Analyzer Training** – Improving audit coverage, fraud detection, data analysis accuracy, and process efficiency through automation.

**IT General Controls Training** – Strengthening the Group’s IT control environment, data security, and regulatory compliance.

**Individual Risk Training** – Focusing on aligning risk appetite with strategic objectives, mitigating potential risks, and fostering a robust, organization-wide risk-aware culture.

Types of Training Provided
Related Party & Conflict of Interest Awareness
Anti-Money Laundering
AI Awareness
Resourcefulness and Redesign Thinking
Financial Literacy
Compliance Awareness
M-201 (Management Programme)
UAE Tax Awareness

## Diversity, Equity, and Inclusion

Over the past 30 years, Dubai Investments has been committed to a diverse and inclusive workplace that promotes engagement, innovation, and high performance. The policies ensure a discrimination-free environment across compensation, benefits, and training. It continues to prioritise gender equality, the inclusion of people of determination, and balanced workforce representation, recognising that diversity broadens perspectives, nurtures creativity, and strengthens decision-making. During the year, 60 women joined the Group.

Dubai Investments encourages open communication and offers people various feedback and input channels. For example, Dubai Investments and its subsidiaries have whistle-blowing policies and a grievance mechanism that allows employees to speak up and raise their concerns. Throughout the reporting period, no whistleblower cases were raised.

## Employee Well-being

Dubai Investments provides a comprehensive suite of wellbeing benefits designed to support the physical, mental, and financial health of employees, enabling a safe, supportive, and inclusive workplace

Employee Benefits	
<b>Life Insurance</b>	All permanent employees are covered under the Company's life and disability insurance policy.
<b>Healthcare</b>	Medical insurance coverage for all permanent employees and eligible dependents residing in the UAE, effective from the first day of employment, subject to eligibility.
<b>Parental Leave</b>	Five working days of paid parental leave for male and female employees, to be availed within six months of childbirth.
<b>Maternity Leave</b>	Sixty calendar days of maternity leave, comprising 45 days fully paid and 15 days half paid, with additional unpaid leave available in line with UAE labour law. Additional leave provisions are available, where applicable, based on medical requirements and in accordance with statutory guidelines.
<b>Flexible Working Hours</b>	Flexible working hours are offered, with an eight-hour workday between 7:30 am and 6:00 pm from Monday to Thursday, reduced working hours on Fridays from 7:00 am to 1:00 pm

**Parental Leave**

In the reporting period 2025, a total of 15 employees availed parental leave and the return-to-work rate, and the retention rate was 100%.

The Group continued to strengthen its commitment to employee well-being, community health, and organisational development through a range of initiatives throughout the year.

**12<sup>th</sup> Annual Blood Donation Drive**  
 The Group held its 12th Annual Blood Donation Drive in collaboration with the Dubai Health Authority, reaffirming its long-standing commitment to community health and lifesaving causes

**Flu Vaccination Day**  
 Dubai Investments organised a Flu Vaccination Day to prioritise workplace health and take preventive measures.

**Breast Cancer Awareness – Pink October**  
 This Pink October, Dubai Investments conducted a breast cancer awareness event followed by creative team-building activities to educate and inform employees on early detection and achieving a healthy lifestyle.

**Dubai Fitness Challenge 30x30**  
 Dubai Investments employees continued to show strong commitment throughout the 30x30 Fitness Challenge. 102 employees participated with total of 23 million steps taken as part of this activity.

**Pilates session at Dubai Investment House**  
 To promote employee wellness, weekly Pilates sessions were organised at DI House for women employees, encouraging strength, flexibility, and mindfulness.

**On-Site Health Check-ups in partnership with Prima Vita Polyclinic**  
 On-site health check-ups were conducted, offering general, dental, and eye screenings, while a partnership with Prima Vita Polyclinic introduced personalised wellness protocols aimed at boosting energy and enhancing physical performance.

### Health and Employee Well-Being

As part of ongoing efforts to enhance employee engagement on wellness topics, organised holistic nutrition and healthy recipe preparation and diabetes and hypertension management and prevention webinar.

### Sports Day at Emirates Float Glass

Emirates Float Glass organized and concluded its annual Sport Fest 2025 event, promoting employees' engagement and well-being, celebrating teamwork, wellness, and community through a year of engaging interdepartmental sporting events.

### Wellness day at Emirates Glass

Emirates Glass hosted Wellness Day, encouraging employees to focus on health, balance, and well-being in the workplace

## Occupational Health and Safety

Dubai Investments prioritises workplace safety by identifying and mitigating potential hazards to prevent injuries, illnesses, property damage, and environmental harm. The company upholds stringent occupational health and safety (OHS) standards, ensuring employee well-being and fostering a safe working environment. Its OHS policies align with international best practices and regulatory requirements, supported by comprehensive risk mitigation protocols and regular reviews. Training and awareness programmes play a key role, equipping employees to recognise hazards, follow safety procedures, and respond effectively in emergencies.

100% of Workers are covered by an OHS Management System

### ***Integrating Safety into Glass Manufacturing***

Operating in the glass manufacturing industry, Saudi American Glass manages inherent operational hazards such as sharp glass edges, equipment related risks, dust, noise, and material handling exposures. To address these risks systematically, the company has implemented a structured occupational health and safety management system aligned with the requirements of the Ministry of Human Resources and Social Insurance and the Industrial Cities Authority. The system applies across factory operations, warehouses, and worker accommodation, ensuring consistent oversight and compliance.

Hazards are identified through daily inspections, supervisory monitoring, and direct worker reporting. Specific controls are implemented to minimise risks, including daily inspection and covering of glass edges, safe segregation from walkways, structured waste handling procedures, and regular environmental measurements for gases, dust, and noise. Incidents are recorded, investigated, and corrective actions

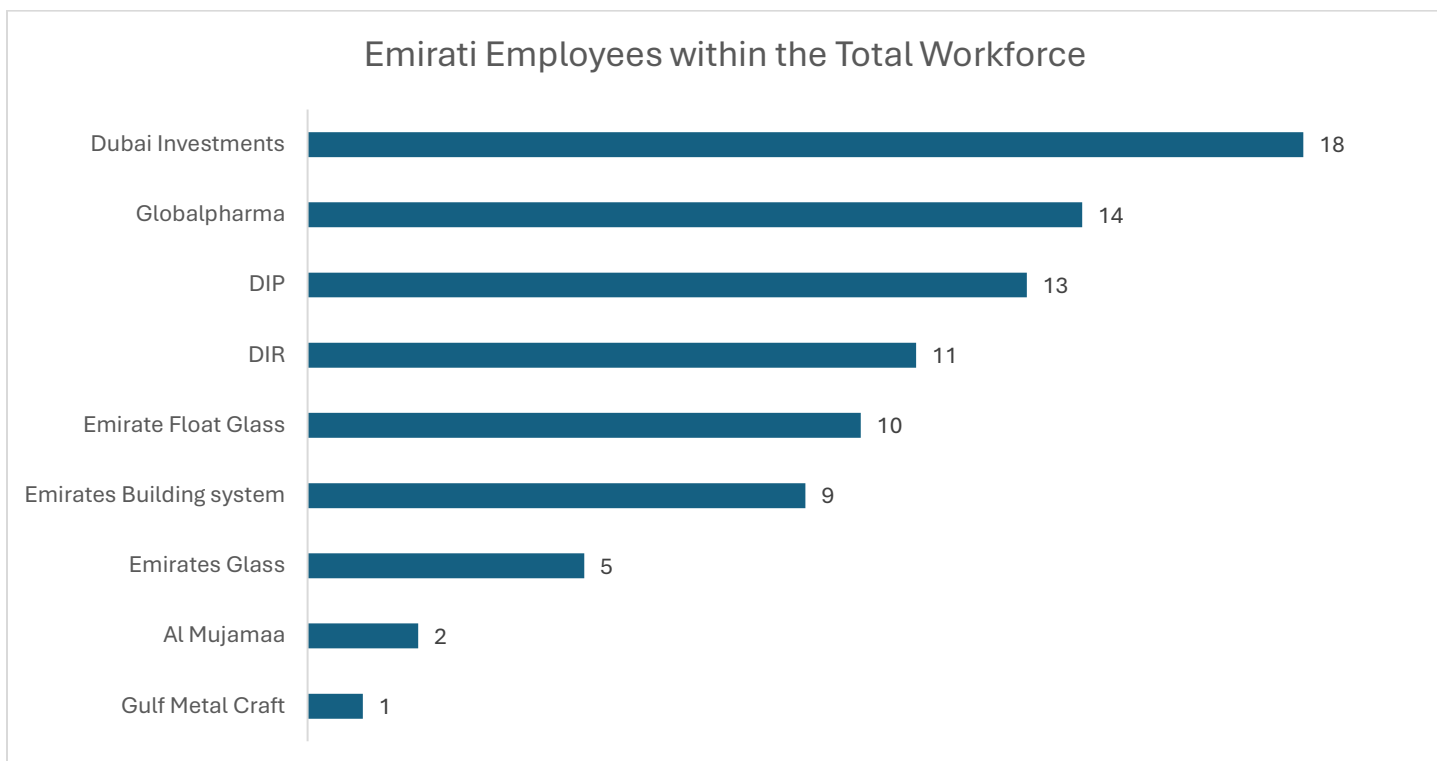

implemented to prevent recurrence. Workers are empowered to report hazards directly to safety officers or management and may refuse unsafe work without reprisal.

To strengthen internal capability, the company conducted a three-day certified training programme covering first aid, firefighting, and inspection practices for factory employees. Continuous safety communication, routine compliance checks, medical examinations, vaccination initiatives, and health insurance coverage further reinforce the system. Through disciplined implementation and consistent monitoring, Saudi American Glass has strengthened its safety culture and contributed to a reduction in employee injuries.

Health and Safety	2024	2025
Employee Fatalities	0	0
Contractor Fatalities	0	0
Lost Time Injury Frequency Rate (LTIFR)	13.71	9.11
Employee Total Recordable Injuries	66	30
Total Employee Man-Hours	3,517,798	3,291,623
Total Contractor Man-Hours	4,846,566	4,810,273

### Emirati Talent Development

Dubai Investments is committed to supporting the UAE government’s efforts to increase Emirati representation in the private sector, aligning with the NAFIS programme under the Emirati Talent Competitiveness agenda. During the year the total number of Emirati employees were 72.

## Community Partnerships and Impact

Over the past 30 years, Dubai Investment has driven impactful changes across various sectors, including real estate, healthcare, and education, through its sustainability initiatives and CSR programs.

Employee Hour Volunteered  
**460**

Social Contribution  
**AED 2.03 million**

### Health and Well-being

**Accessibility for People with Disabilities-** Sponsored Accessibilities Expo event which focuses on mobility of people with disabilities.

**Sound of Silence-** Sponsored Sound of Silence podcast for awareness of issues faced by people of determination

**Autism Awareness-** Dubai Investment Park hosted the Autism Awareness Ride by Berets Motorcycle Club with fun activities, bike and car displays, food trucks, and more for the community to enjoy

**Sports Competition** - DIP celebrated the winners of the 17th Corporate Sports Competition, honouring teamwork, and community spirit at the trophy ceremony

**Corporate Sports Competition** - DIP celebrated the winners of the 17th Corporate Sports Competition, honouring teamwork, and community spirit at the trophy ceremony.

### Community Well Being

**Gaza Relief Campaign** - Dubai Investments supported Gaza in Our Hearts – Ramadan Suhoor, contributing to Dubai Cares' emergency relief program

**Culture Alignment Workshop** - EBS partnered with Frost & Sullivan for a Culture Alignment Workshop, engaging cross-functional teams to reinforce values, align behaviours, and build a future-ready, collaborative culture

**Lunch and Learn** - Emirates Glass hosted a 'Lunch & Learn' session for Sharjah City Municipality, presenting advanced glass solutions that combine sustainability, energy efficiency, and architectural innovation

**Introduction to Energy Protocol** - Dubai Investments, in collaboration with Prima Vita Polyclinic, introduced individual wellness protocols focused on energy boosting and physical performance

**Kiswat Eid initiative** - In line with the UAE's Year of Community, Dubai Investments employees volunteered for the Kiswat Eid initiative by the Sharjah Big Heart Foundation, helping provide Eid clothing to orphans in Gaza

## Expert Sessions for Leadership

**Future Transformation Expert Session** - Dubai Investments hosted strategic expert John Sanei for an exclusive future-readiness session with top management, covering transformational thinking, simplified decision-making, transformation phases, and the future of business

## Environmental Initiatives

With over 3,500 runners, the 4th Annual Dubai Investments Green Run promoted sustainability, healthy living, and community spirit, and brought together participants of all ages and fitness levels

Dubai Investments reaffirmed its commitment to sustainability on World Environment Day

Capacity building session for DI Sustainability Champions was organized on the new UAE Climate Law making them aware of new reporting requirements.

Sponsored International Conference on Business, Energy, Environment and Sustainability by University of Sharjah which focused on renewable energy integration, environment conservation, carbon accounting, and Integrated Reporting.
